FINANCIAL REPORT

Statement by the Chief Executive Officer

2019-2020 Financial Report

Independent Audit Report

SHIRE PRESIDENT'S REPORT

Well what an interesting year it has been.

Firstly I would like to thank the people who have supported me in the role as President. To my fellow Councillors Cr White, Cr Nazzari, Cr Holzknicht, Cr Letter and incoming new Councillors Cr Barritt and Cr Penny, thank you for the help and support to guide Council forward. Councillors provide feedback from community members and represent them in the best way they possibly can. A special mention to our staff and their leader Chief Executive Officer, Keith Williams.

This past year has seen the completion of many projects and many more developed even with Covid-19 in the foreground background. Council's Annual Budget included a 3.5% rate increase for 2019/20 to maintain and improve its assets.

As per usual the Shire continues to improve the road network. This is a significant part of the Annual Budget-1.73 million dollars, funding obtained from the Regional Road Group (RRG) and Roads to Recovery programs and the Shires 1/3 contribution to RRG assisted to complete the funding for the projects. Well done to the all the staff to complete them on time. The road projects were:

- Tambellup West stabilise patches and reseal
- Gnowangerup-Tambellup stabilise patches and reseal 2 sections
- Toolbrunup widen seal
- Pallinup reconstruct and seal 4 km

The Shire understands the need to keep pace with current road transport needs, and it continues to look to improvements to the Restricted Access Vehicle (RAV) network and construction of roads to a higher standard and is always pushing to obtain funding where it can.

Along-side normal operations the shire has partnered with other neighbouring local governments to deliver housing projects through the Great Southern Housing Initiative. Successful applications to the Building Better Regions Fund (BBRF) and the Regional Aged Accommodation Program supported a significant amount of funding and was supplemented by the Shires building reserve to deliver 5 million dollars' worth of housing to our Shire.

As noted below:

- Holland Court 4 Independent Living Units, Broomehill
- 2 key worker chalets in the Broomehill Caravan Park
- 3 staff houses, 2 in Broomehill and 1 in Tambellup
- 3 Government Regional Officers Houses in Tambellup

These projects inject new housing stock into our communities and attract future workers to reside in our towns. Well done Keith, a lot time and effort has gone into this, and it is not only our towns that have benefited from your work.

After a number of low rainfall years in a row our local government was also fortunate to meet the criteria to receive drought funding in the form of Drought Communities Program.

Various townscape plans and water improvements were presented to the community for comment, with feedback provided the Council endorsed them and have forwarded eligible projects to the Federal Government for approval.

These improvements will go a long way to support a much needed facelift for our town centres and surrounds, and Council have used the Strategic Plan to guide them on the intended projects.

These are:

- Eligible water efficiency Projects
- Upgrades to the Broomehill Recreation Complex
- Holland Track Interpretive Centre
- Street Scape in Broomehill and Tambellup
- Development Youth Centre in Tambellup

Many of these projects will hopefully be built and completed by local contractors.

The past year has certainly kept us all on our toes particularly with the terrible fire season. I would like to acknowledge what a fantastic contribution our volunteers have given to the Stirlings, Camel Lake and the Katanning fires.

I was extremely proud to be a representative for our community, with people who attended and continually attend emergency situations, this was also recognised at a volunteer sundowner at the Tambellup Pavilion in February.

As many would have noticed the new Fire Shed under construction in Broomehill on Great Southern Highway. This modern building not only looks great but caters for the needs of a modern Fire Brigade. I'm sure the Broomehill Central Brigade will enjoy the new premises. This was funded by the Department of Fire and Emergency Service (DFES) and well done to Cindy Pearce our Community Emergency Services Manager (CESM) for her work around this and for contributions to the busy fire season. Hopefully a quite year ahead.

Once again, I thank the Shire Executive staff who managed their teams to achieve some great projects in a pretty trying year. It has been a larger than normal Budget to handle with an increased workload for many.

Well done everyone. I look forward to next year and what it will bring.

Mark Paganoni
SHIRE PRESIDENT

CHIEF EXECUTIVE OFFICER'S REPORT

It has, in somewhat of an understatement, been an interesting year.

The Great Southern Housing Initiative Housing project reached development stage, with all planning and design completed earlier in 2019. Construction of this housing commenced in June 2019, and by March 2020 four Independent Living Units (ILU's) for the well-aged were constructed in Broomehill, four dwellings were constructed in Tambellup, and two dwellings were commenced in Broomehill. Three of the dwellings in Tambellup have already been leased for teachers and police, with the fourth retained for staff housing. The two dwellings under construction in Broomehill are also for staff housing.

Most of these dwellings have been constructed in what can only be described as exceptional timeframes, with tenants already touted for the Broomehill ILU's, and all dwellings in Tambellup leased and occupied.

Part of this project included the clean-up of a contaminated site in Tambellup, where diesel had leaked into the ground at the site of the old power station. This clean up took considerable resources, and resulted in a twenty metre by thirty metre wide hole up to three metres deep. All contaminated material was removed and the site was made safe and prepared for development. Two new houses now stand on this site! A significant achievement given the complexities of the housing project and the clean-up.

After a successful application to the Department of Fire and Emergency Services (DFES) Local Government Grant Scheme, planning for the new Bushfire station in Broomehill continued. A tender process was called and awarded to RM Smith and Sons, with construction commencing in February 2020. The Fire station is currently at lock up and should be finished early in the new financial year. It is rewarding to see this project progress so quickly after all the background planning. Special thanks to our Community Emergency Services Manager (CESM), Cindy Pearce, for her commitment to this project - without her advocacy I am sure this project would not have received grant funding.

In January 2020 the Shire was advised that it is eligible for Drought Communities Program funding. This Federal Government program is designed to provide economic stimulus to Local Governments affected by drought.

The Shire plans a series of projects that will provide employment for local contractors. Projects being considered include:

- New water Infrastructure Broomehill and Tambellup
- Streetscape Upgrade in Broomehill
- Nature Play in Broomehill
- Upgrade oval access at Broomehill Sporting Complex
- Holland Track Interpretive Centre
- Town Square redevelopment Tambellup
- Youth Centre Upgrade Tambellup
- Townscape upgrade Tambellup

Along with many smaller fires, in early February 2020 our fire brigades attended a significant fire incident in Katanning, providing vital fire-fighting and support for the successful extinguishment of this fire. The turn out from Broomehill-Tambellup volunteers was exceptional, and we thank them again for their contribution.

The works crew has been steady, with only one change as Ricky Riley resigned after being successful in a new job in mining sector. We wish Ricky all the best.

Our Works Manager, Peter Vlahov, successfully defeated a cancer scare, and we all admire his strength and tenacity. Peter and the works crew have continued to improve the quality of our road network, again undertaking significant road construction projects successfully - on time and on budget.

There have been a few changes in the office. Damon Powell joined the Shire as a part time Ranger, and then later in the year had Building Maintenance Officer added to his tasks. The always bright Erryn Beacham left the Shire for the brighter lights of Albany, and will be missed. Rebecca Ford was successful in applying for the Rates Officer position, joining us from the Shire of Katanning. Charmaine Cantwell, one of our hardworking cleaners, left us in October 2019 to move to Albany, replaced by Tania Cox.

We employed several casual staff to cover for some staffing shortfalls, including Marc Norris and Andrew Meyer. Lara Timms re-joined us after maternity leave, and Marni Lloyd Woods confirmed what we all suspected and will be leaving us in the new financial year to expand her family.

The Coronavirus pandemic hit in March 2020, with both offices being closed for some weeks due to mandatory social distancing requirements, though appointments were still being taken for local residents. The Shire and community coped well with the restrictions put in place, and has been largely unaffected by the outbreak.

Council was also advised that it is eligible for funding under the Local Roads and Community Infrastructure Program to assist with the Coronavirus recovery program, and is currently developing projects that will be eligible under this funding stream. Gravel re-sheeting projects are seen as a priority for this funding. These projects should be finalised for inclusion in the 2020/2021 budget.

We have recently entered into agreements with the Shire of Plantagenet and Shire of Cranbrook for shared services for Environmental Health and Building Surveyor services respectively. Shared services are an efficient way to provide services and support local and regional employment.

The Local Government Minister has flagged a zero rate rise in response to Coronavirus to assist communities with this challenge. While this will have a significant impact on operations, it is accepted that the Local Government sector must assist with the recovery process, and Council is accordingly developing its budget to reflect this direction. I trust that our finance team will again successfully deliver a balanced budget, despite these difficult restrictions.

A challenging year, and no doubt another challenging year ahead, however, we continue to deliver projects and services, as well as undertake our usual activities efficiently and effectively.

Keith Williams
CHIEF EXECUTIVE OFFICER

SHIRE PROFILE

The Shire of Broomehill-Tambellup is a progressive rural community located within the Great Southern Region of Western Australia. The Region is predominantly a sheep and grain producing area with a growing interest in viticulture, horticulture and tourism.

The Shire has a population of approximately 1,144 people and covers around 2,813 square kilometres with approximately 272km of sealed roads and 754km unsealed roads.

The Shire has two towns, Broomehill Village and the Tambellup town site, that offer advantages of rural lifestyle with the convenience of most essential services including recreation and leisure facilities, government, health and education services.

The Shire of Broomehill-Tambellup covers the former individual Shires of Broomehill and Tambellup, which merged in July 2008. The main office is in Tambellup, and staff offer services at both offices such as processing of driver and vehicle licenses, animal registrations and payments of Shire accounts.

The vision of the Council is based on strong traditions, to provide:

- A great place to raise children
- Clean, green and prosperous
- A tradition of innovation – readily embracing new people and new ideas
- A strong sense of hospitality and tolerance
- Pride in our towns

The Council is committed to: achieving a better quality of living for the people in the community; providing a great place to live, work, raise children and visit, which will encourage a range of lifestyles and opportunities; caring for our natural environment, cultural diversity and heritage.

The Shire of Broomehill-Tambellup has two offices located at:

Broomehill
30360 Great Southern Highway
BROOMEHILL WA 6318

Tambellup
46-48 Norrish Street
TAMBELLUP WA 6320

ADDITIONAL INFORMATION

National Competition Policy

This policy has been introduced by the Commonwealth Government so as to promote competition for the benefit of business, consumers and the economy by removing unnecessary protection of monopolies of markets where competition can be enhanced. It effects local governments as factors such as exemption from company and income tax or possible local regulations and laws may give local government a potential advantage over private contractors.

In respect to competitive neutrality, the Shire of Broomehill-Tambellup reports:

- The Shire of Broomehill-Tambellup during 2019-20 did not engage in any significant business activities which generated in excess of \$200,000 annual income. Therefore, the introduction of competitive neutrality under Clause 7 of the policy was not required.
- There is no indication that the Council will become involved in any significant business activities during the next financial reporting period.
- There have been no allegations received by the Council of non-compliance with the neutrality principles.

Employee Remuneration

The Local Government (Administration) Regulations 1996 – Regulation 19B requires that the annual report for a Local Government for a financial year is to contain the following information. Set out below, in bands of \$10,000, is the number of employees of the Shire entitled to an annual salary of \$100,000 or more.

100,000 – 109,999	
110,000 – 119,999	2
120,000 – 129,999	
130,000 – 139,999	
140,000 – 149,999	1

Register of Complaints

Section 5.53(2)(hb) of the *Local Government Act 1995* requires that the Annual Report contain details of entries made in the Complaints Register under Section 5.121 regarding complaints made about elected members during the financial year. There were no complaints lodged against elected members in the year under review.

Adoption of Local Laws

Council did not adopt any new Local Laws during the 2019-20 financial year; however a review of its existing Local Laws continued during the year. The review is being undertaken in conjunction with the other member Councils of the Southern Link VROC and will be completed during 2020-21.

Public Interest Disclosure

In accordance with the requirements of the Public Interest Disclosure Act 2003, the Shire of Broomehill-Tambellup has established procedures to facilitate the making of disclosures under the Act. These procedures set out the processes in place in respect to protected disclosures generally, to protect people from reprisal for making protected disclosures and to provide guidance on investigations.

During the 2019-20 financial year, no disclosures relating to improper conduct were made to the Shire and therefore no disclosures were referred to the ombudsman.

Freedom of Information

The Shire of Broomehill-Tambellup welcomes any enquiries for information held by Council.

If information cannot be accessed by less formal means, a Freedom of Information request can be made by contacting the Chief Executive Officer.

It should be noted that some documents are for viewing only and documents cannot be copied which would breach the *Copyright Act 1968*.

Nil enquiries were received during the 2019-20 period.

Council's Information Statement is reviewed annually and a copy made available at both administration offices for perusal, as required under the *Freedom of Information Act 1992*.

Disability Access and Inclusion Plan

Section 29(m) of the Disability Services Act 1993 requires the Shire to report on the following seven outcomes in its approach to assisting people with disability within the Shire:

1. People with disability have the same opportunities as other people to access the services of, and any events organised by, the relevant public authority.

The Shire's libraries continued to support patrons with large print books available in specific, easily located areas in the libraries. Staff provide support to patrons unable to attend the library in person through a home delivery service, with a selection of books delivered at regular intervals.

Community organisations utilising Council facilities for events are provided with an events checklist which incorporates accessibility considerations.

The Shire's Strategic Community Plan includes an objective to 'ensure our community is safe, connected, harmonious and inclusive'. Correspondingly, the Corporate Business Plan includes a strategy to promote inclusive community participation and engagement in Council and community events and activities. This focusses on ensuring that information shared with the community and events arrangements are done so with inclusion in mind.

2. People with disability have the same opportunities as other people to access the buildings and other facilities of the relevant public authority.

Council is committed to ensuring all Council buildings are able to be accessed by people with Disability, and as budgets have allowed, modifications to improve accessibility have been made. This year the double front door at the Tambellup Community Resource Centre was replaced with a single door that allows patrons using mobility scooters or wheelchairs to access the facility more easily.

The Shire received funding for the construction of four independent living units in Broomehill. The designs were subject to a desktop audit by an Environment Consultant, to consider features that would assist tenants with physical, sensory or cognitive disabilities to age in place. The completed units have incorporated many of the recommendations made in the audit report, which will support tenants with disability to live independently.

Footpath replacement and maintenance continues to be a priority, with works continuing on the upgrade of footpaths in the Tambellup town centre.

3. People with disability receive information from the relevant public authority in a format that will enable them to access the information as readily as other people are able to access it.

All Council publications are available in a variety of formats on request for people with specific needs. This information is conveyed through local newsletters and within each individual document. The Shire's website was redeveloped and launched in March 2020. The new site includes accessibility features, and is now compliant with the Web Content Accessibility Guidelines 2.1 which provides a single shared standard for web content accessibility that meets the needs of individuals, organizations, and governments internationally.

4. People with disability receive the same level and quality of service from the staff of the relevant public authority.

The Shire of Broomehill-Tambellup Customer Service Charter was reviewed in 2019-2020 to reflect the Shire's commitment to the quality of service provided to all residents. The Customer Service Charter was promoted to all residents through Topics, and is available on the Shire's website. This included a commitment to:

- Progressively improve access to services to people with disability.
- Make information available in alternative formats for people with specific requirements.
- Ensure residents are able to provide customer feedback by a variety of means including: in person; by telephone, fax or email.

5. People with disability have the same opportunities as other people to make complaints to the relevant public authority.

Grievance and complaint mechanisms are promoted through local newsletters and include in person phone, mail, fax and email options.

6. People with disability have the same opportunities as other people to participate in any public consultation by the relevant public authority.

Public consultation methods for various activities have included; publication of information on the Shire's website, via social media, through the local newsletter 'Topics' which is mailed to every household in the Shire, mailed flyer, and focus groups. Responses to requests for public comment are able to be made in person, via mail, fax or email.

7. People with disability have the same opportunities as other people to obtain and maintain employment with the Shire of Broomehill-Tambellup.

One staff member completed 'Lighthouse Project' training, to better understand workplace considerations when employing a person with disability. Inclusive recruitment practices are used with all advertised positions. A workforce diversity questionnaire is completed by new employees on commencement, to allow the Shire to understand any specific needs of the employee in relation to disability.

State Records Act 2000

The Shire of Broomehill-Tambellup’s amended Recordkeeping Plan RKP 2020014 was approved by the State Records Commission at its meeting on the 7th August 2020. The Recordkeeping Plan will need to be reviewed again by August 2025.

As an organisation staff are meeting the requirements to which records are to be created and kept. The Recordkeeping Plan provides an accurate reflection of the recordkeeping program within the organisation, including information regarding our organisation’s recordkeeping systems, disposal arrangements, policies, practices and processes. The review has shown that the Shire of Broomehill-Tambellup is compliant with the Act. Staff will continue to improve the recordkeeping processes and procedures to continue to meet the requirements of the Act.

Elected members have received information on what constitutes a record from a councillor perspective, and their responsibility to ensure relevant information is captured into Council’s record keeping system.

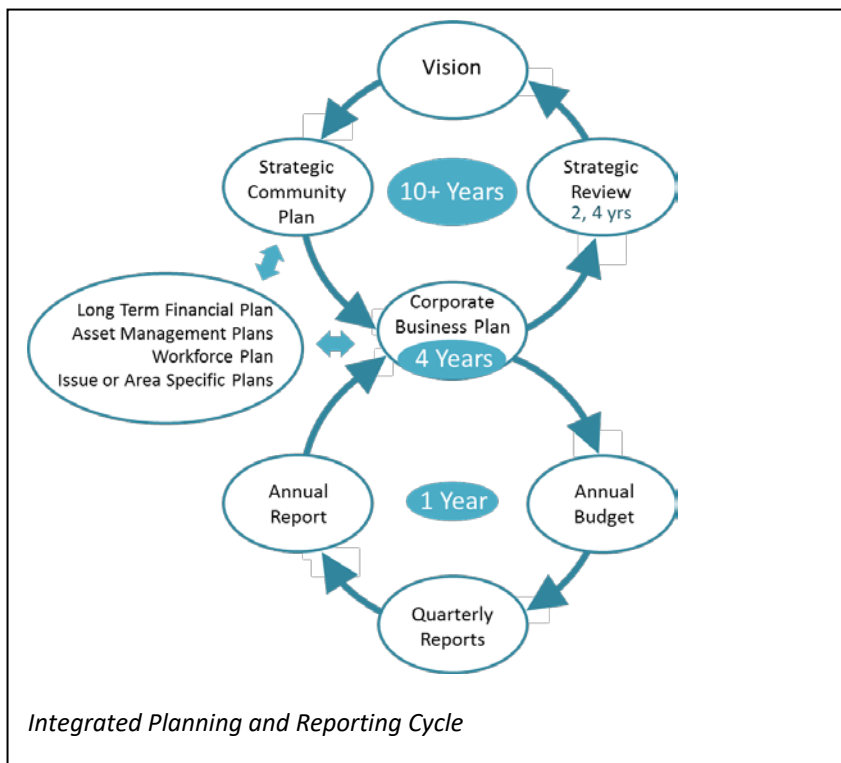

INTEGRATED PLANNING & REPORTING: STRATEGIC COMMUNITY PLAN 2018-2028

In 2010, the Integrated Planning and Reporting (IPR) Framework and Guidelines were introduced in Western Australia (WA) as part of the State Government’s Local Government Reform Program. All local governments were required to have their first suite of IPR documents in place by 1 July 2013.

In essence, IPR is a process designed to:

- Articulate the community’s vision, outcomes and priorities
- Allocate resources to achieve the vision, striking a considered balance between aspirations and affordability
- Monitor and report progress

The IPR process is based on a four year cycle, with the Strategic Community Plan, the highest level document, being reviewed at the two and four year mark to coincide with the review timeframe of the next level document, the Corporate Business Plan, and other informing strategies.

Strategic Community Plan 2018-2028

The Strategic Community Plan 2018-2028 was endorsed by Council in December 2018. The document incorporates a community vision and overarching goal, with three Key Result Areas (KRAs) developed– ‘Our People’, ‘Our Economy’ and ‘Our Places’. These evolved from the analysis of community feedback, and objectives and strategies were developed under each KRA to achieve the stated desired outcome.

Progress 2019-2020

The following provides an overview of actions and achievements through the year that contribute to achieving the desired outcome for each Key Result Area.

Key Result Area 1: Our People

Desired Outcome: To have a cohesive, diverse and inclusive community supported by quality services and facilities. These will be supported by a Council demonstrating effective leadership and good governance.

1.1 Our community is safe, connected, harmonious and inclusive

The Shire utilised a variety of methods through the year to communicate and consult with members of the community, including Topics, flyers, local noticeboards and the website. The Shire launched its new website in March 2020, providing a more consistent and improved user experience. The onset of the COVID-19 pandemic also saw a Shire Facebook page created, initially to communicate essential information in relation to the pandemic. The page has evolved into a useful tool to share information quickly and effectively with residents, and the number of page ‘likes’ is steadily increasing.

COVID-19 threw not only our community, but the world into an unprecedented period of uncertainty during 2020, and locally, measures were taken to keep our community safe and connected during this time. The Local Emergency Management Committee was activated in response and met weekly during the initial stages, to ensure businesses and agencies were able to meet their obligations in terms of operations and community support.

Aside from COVID-19, the community was in safe hands, with our volunteer emergency services well supported and coordinated to respond to incidents. During the year, support was provided to neighbouring shires for significant fires at Camel Lake, the Stirling Range and Katanning. A bushfire awareness seminar held in Broomehill at the request of local residents following the Katanning fire was well attended. Work commenced on the construction of the new Broomehill Central Bush Fire Brigade building by RM Smith & Son.

Community events held in Broomehill and Tambellup, as well as neighbouring communities, were promoted through the Shire's social media.

The Shire partnered with Baldjamaar Foundation and the Tambellup Primary School to celebrate Reconciliation Week in May, with a 'Sea of Hands' display installed at the entrance to Tambellup and on the Shire lawn.

1.2 Our community has services and facilities that meet our needs and expectations

An interagency committee established in Tambellup in September 2019 identified that youth support was required in Tambellup. In conjunction with the reopening of the Blue Light 'Zone' building by local police, an application to WA Police Community Crime Prevention Fund was successful, to deliver a traineeship in youth work. It is intended that the traineeship will be hosted by the Shire, and delivered with the support of agencies working with the Tambellup community. The application was successful, however recruitment to the position was delayed due to COVID-19.

The Shire is advocating through the WALGA Great Southern Zone for improvements to mobile phone towers to ensure battery backup facilities are sufficient to maintain communications for an extended period in the event of a power outage.

The Shire is working with regional local governments and Great Southern Centre for Outdoor Recreation Excellence on the implementation of the Regional Trails Master Plan. Council has committed financial and in kind support to develop a walk trail in Boot Rock Reserve, upgrade the walk section of the Holland Track, and undertake maintenance of the Tambellup Heritage Trails.

1.3 Our community provides opportunities to enhance local employment

The Shire has been pleased to support the Tambellup Community Resource Centre by hosting a trainee at the administration office one day per week. The Shire continues to liaise with Impact Services regarding opportunities to provide work experience and traineeships.

1.4 Organisations in our community demonstrate strong leadership and commitment

Over the year, the Shire provided financial and in kind support to a number of community groups and organisations to conduct events in Broomehill and Tambellup. These included:

Broomehill and Tambellup Primary Schools (various activities), Tambellup Hockey Club (Great Southern Carnival), Broomehill Recreation Complex (30th Anniversary), Tambellup Agricultural Society (Market Day), Tambellup Police and Blue Light (COVID pack distribution, various), Tambellup P & C (Drum Muster), Tambellup Community Resource Centre (Tough Love seminar, visitor centre status, various).

Shire staff continued to maintain buildings and facilities that are utilised by community groups and organisations, to a high standard.

1.5 Our Shire demonstrates strong leadership, effective governance and efficient service delivery to our community

The Local Government Election conducted in October 2019 saw Cr Michael White returned for a second term, and new Councillors Douglas Barritt and Steven Penny elected. Elected member training has been made available to all Councillors, with mandatory training requirements currently being completed.

Shire staff have worked diligently through the year to ensure compliance activities were completed within statutory timeframes. Of particular note was the awarding of a Silver Award (80% achievement) following a Tier 2 Occupational Safety & Health Audit in 2019. This represents a great achievement by all staff in promoting a safe work environment and culture across the organisation.

Council continued to engage and collaborate with a number of local government and regional organisations during the year, on matters of importance to the community. This included the Southern Link Voluntary Regional Organisation of Councils, Regional Road Group, Great Southern Treasures, Great Southern Recreation Advisory Group, Early Years Initiative, Great Southern Housing Initiative and Great Southern Centre for Outdoor Recreation Excellence, amongst others.

COVID-19 changed the way the Shire operated for a time, with the administration offices closed to the public for six weeks. While the doors were closed, we were fortunate to be able to have all staff continue working from the office, with appropriate measures in place, and we were able to provide assistance to residents and rate payers over the phone, directing them online where possible. The works program continued with minimal disruption during this period. Senior staff met regularly to monitor and respond to directives from the State Government as they were implemented, and this resulted in improved planning to be able to provide a safe environment and continued service to the community in the event of an outbreak of the virus.

Council meetings adapted to the new regime, going online initially, then transferring venues to the Tambellup Community Pavilion, where appropriate distancing was able to be achieved.

Regional support was especially evident during the COVID-19 period, with weekly regional meetings of emergency organisations to monitor and ensure preparedness for a potential outbreak, and also regular meetings with the regional local government and business community to monitor economic and social impacts of travel restrictions. The Shire participated in a statewide survey to determine how our communities were travelling in terms of well being and resilience during the pandemic.

Key Result Area 2: Our Economy

Desired Outcome: To maintain an environment in the towns and rural areas of the Shire that is conducive to tourism, small business and population retention and growth.

2.1 Our community provides a unique tourism and visitor experience

Council continued its financial and in kind support of Great Southern Treasures through the year, providing a contribution towards operational costs, as well as auspicing grants and management of the group's financials. Great Southern Treasures coordinated the annual Bloom Festival in 2019, and the Shire provided in kind support and advice to the Tambellup Agricultural Society to conduct a market day as a Bloom event. The Shire also promoted its drive trails and wildflowers to travellers visiting the region.

Council tendered the construction of two cabins in the Broomehill Caravan Park in December 2019, with RM Smith and Sons winning the tender. Design processes were completed in June with construction to commence shortly after. This project forms part of the broader Great Southern Housing Initiative project. It is anticipated that the new cabins will be made available to CBH for employee accommodation during peak times, and for visitors to the community at other times.

Council determined to advertise the former Tambellup Bowling Club for purchase by tender, for redevelopment as a caravan park. The tender was awarded in February 2020 and negotiations for the development are progressing.

The community was invited to provide feedback to the draft Great Southern Centre for Outdoor Recreation Excellence (GSCORE) Regional Trails Master Plan. Following endorsement of the Plan by this and other regional local governments, Council committed to funding the development of new trails and upgrade of existing trails in Broomehill and Tambellup in 2020/2021, in collaboration with GSCORE.

2.2 A stable population base is important to the sustainability of our community

Diversity in housing was noted as a priority by the community, and the initiation of the Great Southern Housing Initiative (GSHI) project seeks to partially address that. The GSHI project is a collaboration of seven local governments and one community organisation, aiming to develop key worker housing and independent living seniors accommodation in 12 communities. In this Shire, construction of four houses in Tambellup and four independent living units in Broomehill was completed, with works continuing on two houses and two cabins in Broomehill. It is intended that three houses in Tambellup will be leased to the Department of Communities for police and education housing and negotiations were ongoing at 30 June. The project has been funded by Council and the Australian Government Buildign Better Regions Fund.

Shire support of our Primary Schools, P & C Associations and A Smart Start Great Southern continued through 2019-2020.

2.3 Our Shire actively supports existing local business and encourages new business ventures

Council actively worked to increase the opportunity for local businesses to participate in major projects through the year by including a weighting for local content in tenders advertised for Key Worker Housing, Independent Living Units, Broomehill Caravan Park cabins and the Broomehill Fire Brigade building.

Council once again appointed a delegate to the Tambellup Business Centre Committee.

Key Result Area 3: Our Places

Desired Outcome: To have appealing town centres and surrounding rural areas that reflect their unique history and culture, connected by quality transport infrastructure and well managed natural environments.

3.1 The history, heritage and culture of our communities is reflected in attractive townscapes

A welcome boost was received in January 2020, with the announcement that the Shire was eligible to apply for up to \$1 million in funding through the Drought Communities Programme.

The programme aim is to deliver immediate economic stimulus and other benefits to targeted drought-affected regions of Australia.

Projects for the funding were determined with reference to the Strategic Community Plan and specifically the stakeholder feedback from the consultation process that informed that document. Projects endorsed by Council included:

- Broomehill Sporting Facility Upgrade – to improve access and amenity in the area between the Pavilion and the oval
- Broomehill Townscape Enhancement – to include streetscape works on Great Southern Highway and Journal St
- Broomehill Nature Play Park – to be constructed in Holland Park
- Holland Track Interpretive Centre – to be constructed at a location to be determined but to include townscape interpretation and links to existing heritage sites
- Tambellup Townscape Enhancement and Town Square – to include streetscape upgrades on Norrish St and development of a town square between the Hall and Railway Station
- Tambellup Youth Centre – to refurbish the Railway Station for use as a Youth Centre.

At 30 June 2020, the first draft of concept plans for the town centre works had been advertised for community comment. We look forward to the commencement of all projects and the resulting improvements to our townscapes.

Council has been working with the newly established Broomehill Heritage Group who are working towards reopening the Broomehill Museum, following a significant refurbishment program.

3.2 Our community and Council are environmentally aware and engaged

Council has engaged Warren Blackwood Waste to provide waste collection services, including kerbside and drop off recycling. The annual Drum Muster collection was coordinated by the Tambellup P & C Association once again, with over 3200 containers dropped off for recycling.

The harvesting of storm water has been a priority for Council over recent years. In 2019 funding was received from the Department of Water & Environmental Regulation to extend the stormwater harvesting program in Broomehill. The project included the installation of a 75mm pipeline from the CBH expansion site to the Broomehill Complex Dam, a new pipeline from the Broomehill town dam to the Broomehill Caravan Park, and improvements to the catchment at the Broomehill Complex Dam. These measures complement infrastructure already in place, and ensure that the water harvested off the CBH site is able to be utilised on community facilities, reducing the draw on the scheme.

A photovoltaic system has been installed at the Tambellup Administration office.

Management of road reserves continued through the year, with vegetation pruning and roadside spraying completed.

3.3 Our transport networks are safe and efficient

The Shire continues to work collaboratively with regional local governments and other stakeholders to secure State and Federal funding for the annual capital road works program.

Over the course of the year, Council supported applications to amend Restricted Access Vehicle (RAV) ratings applying to 47 roads (or sections of road) across the Shire. Applications are considered by Main Roads WA as the decision maker, and once approved, improve connectivity for heavy vehicles moving around and through the Shire.

3.4 Our Council facilities and infrastructure are managed sustainably to meet current and future needs

As part of Council's Integrated Planning framework, a Strategic Resource Plan has been developed, which includes levels of service for all Council assets including roads, buildings and equipment. Annually, schedules of maintenance for each asset class are developed and included in the budget process, which form the works program for the coming year.

Long term (10 year) plans are in place for road construction/maintenance and plant replacement, these are reviewed annually in line with the budget process.

Great Southern Housing Initiative

Ribbon Cutting at Lot 384 Parnell Street Tambellup by MP Rick Wilson on 28 January 2020.

SHIRE OF BROOMEHILL-TAMBELLUP
NOTES TO AND FORMING PART OF THE FINANCIAL REPORT
FOR THE YEAR ENDED 30 JUNE 2020

1. BASIS OF PREPARATION

The financial report comprises general purpose financial statements which have been prepared in accordance with Australian Accounting Standards (as they apply to local governments and not-for-profit entities) and Interpretations of the Australian Accounting Standards Board, and the *Local Government Act 1995* and accompanying regulations.

The *Local Government (Financial Management) Regulations 1996* (FM Regs) take precedence over Australian Accounting Standards. Prior to 1 July 2019, Regulation (Reg) 16 arbitrarily prohibited a local government from recognising as assets Crown Land that is a public thoroughfare, ie land under roads, and land not owned by but under the control or management of the local government, unless it is a golf course, showground, racecourse or recreational facility of State or regional significance. Consequently, some assets pertaining to vested land, including including land under roads acquired on or after 1 July 2008, were not recognised in previous financial reports of the Shire. This was not in accordance with the requirements of AASB 1051 *Land Under Roads paragraph 15* and AASB 116 *Property, Plant and Equipment paragraph 7*.

From 1 July 2019, the Shire has applied AASB 16 Leases which requires leases to be included by lessees in the balance sheet. Also, the FM Regs have been amended to specify that vested land is a right of use (ROU) asset to be measured at cost. All ROU assets (other than vested improvements) under zero cost concessionary leases are measured at zero cost (ie not included in the balance sheet) rather than at fair value, as opposed to the vested land which is measured at zero cost. The measurement of vested improvements at fair value is a departure from AASB 16 which would have required the Shire to measure any vested improvements at zero cost.

The Shire has accounted for the removal of the vested land values associated with the Broomehill golf course by removing the land value and associated revaluation reserve as at 1 July 2019. The comparative year amounts have been retained as AASB 16 does not require comparatives to be restated in the year of transition.

Therefore the departure from AASB 1051 and AASB 16 in respect of the comparatives for the year ended 30 June 2019 remains.

Accounting policies which have been adopted in the preparation of this financial report have been consistently applied unless stated otherwise. Except for cash flow and rate setting information, the report has been prepared on the accrual basis and is based on historical costs, modified, where applicable, by the measurement at fair value of selected non-current assets, financial assets and liabilities.

NEW ACCOUNTING STANDARDS FOR APPLICATION IN FUTURE YEARS

On 1 July 2020 the following new accounting standards are to be adopted:

- AASB 1059 *Service Concession Arrangements: Grantors*
- AASB 2018-7 *Amendments to Australian Accounting Standards - Materiality*

AASB 1059 *Service Concession Arrangements: Grantors* is not expected to impact the financial report.

Specific impacts of AASB 2018-7 *Amendments to Australian Accounting Standards - Materiality*, have not been identified.

CRITICAL ACCOUNTING ESTIMATES

The preparation of a financial report in conformity with Australian Accounting Standards requires management to make judgements, estimates and assumptions that effect the application of policies and reported amounts of assets and liabilities, income and expenses.

The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances; the results of which form the basis of making the judgements about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

THE LOCAL GOVERNMENT REPORTING ENTITY

All funds through which the Shire controls resources to carry on its functions have been included in the financial statements forming part of this financial report.

In the process of reporting on the local government as a single unit, all transactions and balances between those funds (for example, loans and transfers between funds) have been eliminated.

All monies held in the Trust Fund are excluded from the financial statements. A separate statement of those monies appears at Note 24 to these financial statements.

SHIRE OF BROOMEHILL-TAMBELLUP
NOTES TO AND FORMING PART OF THE FINANCIAL REPORT
FOR THE YEAR ENDED 30 JUNE 2020

2. REVENUE AND EXPENSES

REVENUE RECOGNITION POLICY

Recognition of revenue is dependant on the source of revenue and the associated terms and conditions associated with each source of revenue and recognised as follows:

Revenue Category	Nature of goods and services	When obligations typically satisfied	Payment terms	Returns/Refunds/Warranties	Determination of transaction price	Allocating transaction price	Measuring obligations for returns	Timing of revenue recognition
Rates	General Rates	Over time	Payment dates adopted by Council during the year	None	Adopted by council annually	When taxable event occurs	Not applicable	When rates notice is issued
Grant contracts with customers	Community events, minor facilities, research, design, planning evaluation and services	Over time	Fixed terms transfer of funds based on agreed milestones and reporting	Contract obligation if project not complete	Set by mutual agreement with the customer	Based on the progress of works to match performance obligations	Returns limited to repayment of transaction price of terms breached	Output method based on project milestones and/or completion date matched to performance obligations as inputs are shared
Grants, subsidies or contributions for the construction of non-financial assets	Construction or acquisition of recognisable non-financial assets to be controlled by the local government	Over time	Fixed terms transfer of funds based on agreed milestones and reporting	Contract obligation if project not complete	Set by mutual agreement with the customer	Based on the progress of works to match performance obligations	Returns limited to repayment of transaction price of terms breached	Output method based on project milestones and/or completion date matched to performance obligations as inputs are shared
Grants with no contract commitments	General appropriations and contributions with no reciprocal commitment	No obligations	Not applicable	Not applicable	Cash received	On receipt of funds	Not applicable	When assets are controlled
Licences/ Registrations/ Approvals	Building, planning, development and animal management, having the same nature as a licence regardless of naming.	Single point in time	Full payment prior to issue	None	Set by State legislation or limited by legislation to the cost of provision	Based on timing of issue of the associated rights	No refunds	On payment and issue of the licence, registration or approval
Pool inspections	Compliance safety check	Single point in time	Equal proportion based on an equal annually fee	None	Set by State legislation	Apportioned equally across the inspection cycle	No refunds	After inspection complete based on a 4 year cycle
Other inspections	Regulatory Food, Health and Safety	Single point in time	Full payment prior to inspection	None	Set by State legislation or limited by legislation to the cost of provision	Applied fully on timing of inspection	Not applicable	Revenue recognised after inspection event occurs
Waste management collections	Kerbside collection service	Over time	Payment on an annual basis in advance	None	Adopted by council annually	Apportioned equally across the collection period	Not applicable	Output method based on regular weekly and fortnightly period as proportionate to collection service
Waste management entry fees	Waste treatment, recycling and disposal service at disposal sites	Single point in time	Payment in advance at gate or on normal trading terms if credit provided	None	Adopted by council annually	Based on timing of entry to facility	Not applicable	On entry to facility
Property hire and entry	Use of halls and facilities	Single point in time	In full in advance	Refund if event cancelled within 7 days	Adopted by council annually	Based on timing of entry to facility	Returns limited to repayment of transaction price	On entry or at conclusion of hire
Fees and charges for other goods and services	Cemetery services, library fees, reinstatements and private works	Single point in time	Payment in full in advance	None	Adopted by council annually	Applied fully based on timing of provision	Not applicable	Output method based on provision of service or completion of works
Commissions	Commissions on licencing and ticket sales	Over time	Payment in full on sale	None	Set by mutual agreement with the customer	On receipt of funds	Not applicable	When assets are controlled
Reimbursements	Insurance claims	Single point in time	Payment in arrears for claimable event	None	Set by mutual agreement with the customer	When claim is agreed	Not applicable	When claim is agreed

SIGNIFICANT ACCOUNTING POLICIES

Grants, subsidies and contributions

Operating grants, subsidies and contributions are grants, subsidies or contributions that are not non-operating in nature.

Non-operating grants, subsidies and contributions are amounts received for the acquisition or construction of recognisable non-financial assets to be controlled by the local government.

Fees and Charges

Revenue (other than service charges) from the use of facilities and charges made for local government services, sewerage rates, rentals, hire charges, fee for service, photocopying charges, licences, sale of goods or information, fines, penalties and administration fees.

SHIRE OF BROOMEHILL-TAMBELLUP
NOTES TO AND FORMING PART OF THE FINANCIAL REPORT
FOR THE YEAR ENDED 30 JUNE 2020

2. REVENUE AND EXPENSES (Continued)

(a) Revenue (Continued)	2020 Actual \$	2020 Budget \$	2019 Actual \$
Contracts with customers and transfers for recognisable non-financial assets			
Revenue from contracts with customers and transfers to enable the acquisition or construction of recognisable non-financial assets to be controlled by the Shire was recognised during the year for the following nature or types of goods or services:			
Operating grants, subsidies and contributions	196,780	90,600	71,397
Fees and charges	271,611	269,458	279,700
Other revenue	33,554	22,200	21,632
Non-operating grants, subsidies and contributions	4,005,592	4,362,700	1,756,937
	<u>4,507,537</u>	<u>4,744,958</u>	<u>2,129,666</u>
Revenue from contracts with customers and transfers to enable the acquisition or construction of recognisable non-financial assets to be controlled by the Shire is comprised of:			
Other revenue from contracts with customers recognised during the year	501,945	382,258	372,729
Other revenue from performance obligations satisfied during the year	4,005,592	4,362,700	1,756,937
	<u>4,507,537</u>	<u>4,744,958</u>	<u>2,129,666</u>
Information about receivables, contract assets and contract liabilities from contracts with customers along with financial assets and associated liabilities arising from transfers to enable the acquisition or construction of recognisable non financial assets is:			
Trade and other receivables from contracts with customers	90,603		
Contract liabilities from contracts with customers	(2,292,980)		

Contract liabilities for contracts with customers primarily relate to grants with performance obligations received in advance, for which revenue is recognised over time as the performance obligations are met.

Information is not provided about remaining performance obligations for contracts with customers that had an original expected duration of one year or less.

Consideration from contracts with customers is included in the transaction price.

Performance obligations in relation to contract liabilities from transfers for recognisable non financial assets are satisfied as project milestones are met or completion of construction or acquisition of the asset. All associated performance obligations are expected to be met over the next 12 months.

Rates instalment and penalty interest (refer Note 20(c))	30,975	25,600	24,703
	52,057	60,300	58,745

SIGNIFICANT ACCOUNTING POLICIES

Interest earnings

Interest income is calculated by applying the effective interest rate to the gross carrying amount of a financial asset except for financial assets that subsequently become credit-impaired. For credit-impaired financial assets the effective interest rate is applied to the net carrying amount of the financial asset (after deduction of the loss allowance).

Interest earnings (continued)

Interest income is presented as finance income where it is earned from financial assets that are held for cash management purposes.

(b) Expenses	Note	2020 Actual \$	2020 Budget \$	2019 Actual \$

3. CASH AND CASH EQUIVALENTS

NOTE	2020 \$	2019 \$
Cash at bank and on hand	4,285,420	2,425,758
Total cash and cash equivalents	4,285,420	2,425,758
Restrictions requirements which limit or direct the purpose for which the resources may be used:		
- Cash and cash equivalents	3,942,357	1,724,274
	3,942,357	1,724,274

The restricted assets are a result of the following specific purposes to which the assets may be used:

Reserves - cash backed	4	1,649,377	1,488,347
Contract liabilities from contracts with customers	13	2,292,980	184,421
Unspent grants, subsidies and contributions		0	51,506
Total restricted assets		3,942,357	1,724,274

SIGNIFICANT ACCOUNTING POLICIES

Cash and cash equivalents

Cash and cash equivalents include cash on hand, cash at bank, deposits available on demand with banks and other short term highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value and bank overdrafts. Bank overdrafts are reported as short term borrowings in current liabilities in the statement of financial position.

Restricted assets

Restricted asset balances are not available for general use by the local government due to externally imposed restrictions. Externally imposed restrictions are specified in an agreement, contract or legislation. This applies to reserves, unspent grants, subsidies and contributions and unspent loans that have not been fully expended in the manner specified by the contributor, legislation or loan agreement.

 Long Service Leave Debtors

	2020	2019
	\$	\$
	290,568	252,396
	93,870	600,130
	154,237	0
	538,675	852,526
	35,586	39,457
	25,266	25,266
	60,852	64,723

SIGNIFICANT ACCOUNTING POLICIES

Trade and other receivables

Trade and other receivables include amounts due from ratepayers for unpaid rates and service charges and other amounts due from third parties for goods sold and services performed in the ordinary course of business.

Trade receivables are recognised at original invoice amount less any allowances for uncollectible amounts (i.e. impairment). The carrying amount of net trade receivables is equivalent to fair value as it is due for settlement within 30 days.

Impairment and risk exposure

Information about the impairment of trade receivables and their exposure to credit risk and interest rate risk can be found in Note 22.

SIGNIFICANT ACCOUNTING POLICIES (Continued)

Classification and subsequent measurement

Receivables expected to be collected within 12 months of the end of the reporting period are classified as current assets. All other receivables are classified as non-current assets.

Trade receivables are held with the objective to collect the contractual cashflows and therefore measures them subsequently at amortised cost using the effective interest rate method.

Due to the short term nature of current receivables, their carrying amount is considered to be the same as their fair value. Non-current receivables are indexed to inflation, any difference between the face value and fair value is considered immaterial.

SHIRE OF BROOMEHILL-TAMBELLUP
 NOTES TO AND FORMING PART OF THE FINANCIAL REPORT
 FOR THE YEAR ENDED 30 JUNE 2020

6. INVENTORIES

Current

Fuel and materials

Non-current

Land held for resale - cost

Cost of acquisition

The following movements in inventories occurred during the year:

Carrying amount at beginning of period

Additions to inventory

Carrying amount at end of period

	2020	2019
	\$	\$
Fuel and materials	32,540	26,158
	32,540	26,158
Land held for resale - cost		
Cost of acquisition	216,000	216,000
	216,000	216,000
Carrying amount at beginning of period	242,158	242,158
Additions to inventory	6,382	
Carrying amount at end of period	248,540	242,158

SIGNIFICANT ACCOUNTING POLICIES

General

Inventories are measured at the lower of cost and net realisable value.

Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

Land held for resale

Land held for development and resale is valued at the lower of cost and net realisable value. Cost includes the cost of acquisition, development, borrowing costs and holding costs until completion of development.

Land held for resale (Continued)

Borrowing costs and holding charges incurred after development is completed are expensed.

Gains and losses are recognised in profit or loss at the time of signing an unconditional contract of sale if significant risks and rewards, and effective control over the land, are passed onto the buyer at this point.

Land held for resale is classified as current except where it is held as non-current based on the Council's intentions to release for sale.

SHIRE OF BROOMEHILL-TAMBELLUP
 NOTES TO AND FORMING PART OF THE FINANCIAL REPORT
 FOR THE YEAR ENDED 30 JUNE 2020

7. OTHER FINANCIAL ASSETS

Non-current

Financial Assets through profit or loss

	2020	2019
	\$	\$
	71,220	70,965

SHIRE OF BROOMEHILL-TAMBELLUP
NOTES TO AND FORMING PART OF THE FINANCIAL REPORT
FOR THE YEAR ENDED 30 JUNE 2020

8. PROPERTY, PLANT AND EQUIPMENT (Continued)

(b) Fair Value Measurements

Asset Class	Fair Value Hierarchy	Valuation Technique	Basis of Valuation	Date of Last Valuation	Inputs Used
Land and buildings					
Land - freehold land	2	Market approach using recent observable market data for similar properties / income approach using discounted cashflow methodology	Independent Registered Valuers	June 2017	Price per hectare / market borrowing rates
Buildings - non-specialised	2	Market approach using recent observable market data for similar properties / income approach using discounted cashflow methodology	Independent Registered Valuers	June 2017	Using market value and current condition, residual values and remaining useful life assessments
Buildings - specialised	2	Market approach using recent observable market data for similar properties / income approach using discounted cashflow methodology	Independent Registered Valuers	June 2017	Using market value and current condition, residual values and remaining useful life assessments
Furniture and equipment					
	2	Cost approach using depreciated replacement cost	Management Valuation	June 2019	Cost Approach
Plant and equipment					
	2	Cost approach using depreciated replacement cost	Management Valuation	June 2019	Cost Approach

Level 3 inputs are based on assumptions with regards to future values and patterns of consumption utilising current information. If the basis of these assumptions were varied, they have the potential to result in a significantly higher or lower fair value measurement.

During the period there were no changes in the valuation techniques used by the local government to determine the fair value of property, plant and equipment using either level 2 or level 3 inputs.

Following a change to Local Government (Financial Management) Regulation 17A, plant and equipment type assets (being plant and equipment and furniture and equipment) are to be measured under the cost model, rather than at fair value. This change is effective from 1 July 2019 and represents a change in accounting policy. Revaluations carried out previously were not reversed as it was deemed fair value approximates cost at the date of change.

FOR THE YEAR ENDED 30 JUNE 2020**

9. INFRASTRUCTURE (Continued)

(b) Fair Value Measurements

Asset Class	Fair Value Hierarchy	Valuation Technique	Basis of Valuation	Date of Last Valuation	Inputs Used
Infrastructure - Roads - earthworks & c/	3	Cost approach using depreciated replacement cost	Management Valuation	June 2018	Construction costs and current condition (Level 2) Residual values and remaining useful life assessments (Level 3) inputs
Infrastructure - Roads	3	Cost approach using depreciated replacement cost	Management Valuation	June 2018	Construction costs and current condition (Level 2) Residual values and remaining useful life assessments (Level 3) inputs
Infrastructure - Footpaths	3	Cost approach using depreciated replacement cost	Management Valuation	June 2018	Construction costs and current condition (Level 2) Residual values and remaining useful life assessments (Level 3) inputs
Infrastructure - Drainage	3	Cost approach using depreciated replacement cost	Management Valuation	June 2018	Construction costs and current condition (Level 2) Residual values and remaining useful life assessments (Level 3) inputs
Infrastructure - Parks & Ovals	3	Cost approach using depreciated replacement cost	Management Valuation	June 2018	Construction costs and current condition (Level 2) Residual values and remaining useful life assessments (Level 3) inputs
Infrastructure - Water Supply	3	Cost approach using depreciated replacement cost	Management Valuation	June 2018	Construction costs and current condition (Level 2) Residual values and remaining useful life assessments (Level 3) inputs
Infrastructure - Other	3	Cost approach using depreciated replacement cost	Independent Valuation	June 2018	Construction costs and current condition (Level 2) Residual values and remaining useful life assessments (Level 3) inputs

Level 3 inputs are based on assumptions with regards to future values and patterns of consumption utilising current information. If the basis of these assumptions were varied, they have the potential to result in a significantly higher or lower fair value measurement.

During the period there were no changes in the valuation techniques used to determine the fair value of infrastructure using level 3 inputs.

SHIRE OF BROOMEHILL-TAMBELLUP
NOTES TO AND FORMING PART OF THE FINANCIAL REPORT
FOR THE YEAR ENDED 30 JUNE 2020

10. FIXED ASSETS

SIGNIFICANT ACCOUNTING POLICIES

Fixed assets

Each class of fixed assets within either plant and equipment or infrastructure, is carried at cost or fair value as indicated less, where applicable, any accumulated depreciation and impairment losses.

ROU assets are measured at cost. This means that all ROU assets (other than vested improvements) under zero cost concessionary leases are measured at zero cost (ie not included in the balance sheet). The exception is vested improvements on concessionary land leases such as roads, buildings or other infrastructure which are reported at fair value.

Initial recognition and measurement between mandatory revaluation dates

Assets for which the fair value as at the date of acquisition is under \$5,000 are not recognised as an asset in accordance with *Financial Management Regulation 17A (5)*. These assets are expensed immediately

Where multiple individual low value assets are purchased together as part of a larger asset or collectively forming a larger asset exceeding the threshold, the individual assets are recognised as one asset and capitalised.

In relation to this initial measurement, cost is determined as the fair value of the assets given as consideration plus costs incidental to the acquisition. For assets acquired at zero cost or otherwise significantly less than fair value, cost is determined as fair value at the date of acquisition. The cost of non-current assets constructed by the Shire includes the cost of all materials used in construction, direct labour on the project and an appropriate proportion of variable and fixed overheads.

Individual assets that are land, buildings and infrastructure and acquired between initial recognition and the next revaluation of the asset class in accordance with the mandatory measurement framework, are recognised at cost and disclosed as being at fair value as management believes cost approximates fair value. They are subject to subsequent revaluation at the next anniversary date in accordance with the mandatory measurement framework

Revaluation

The fair value of land, buildings and infrastructure is determined every five years in accordance with the regulatory framework. This includes buildings and infrastructure items which were pre-existing improvements (ie vested improvements) on vested land acquired by the Shire. At the end of each period the valuation is reviewed and where appropriate the fair value is updated to reflect current market conditions. This process is considered to be in accordance with the *Local Government (Financial Management) Regulation 17A(2)* which requires land, buildings, infrastructure, and vested improvements to be shown at fair value.

Increases in the carrying amount arising on revaluation of assets are credited to a revaluation surplus in equity. Decreases that offset previous increases of the same class of asset are recognised against revaluation surplus directly in equity. All other decreases are recognised in profit or loss.

AUSTRALIAN ACCOUNTING STANDARDS - INCONSISTENCY

Land under control prior to 1 July 2019

In accordance with the then *Local Government (Financial Management) Regulation 16(a)(ii)*, the Shire was previously required to include as an asset (by 30 June 2013), Crown Land operated by the local government as a golf course, showground, racecourse or other reporting or recreational facility of State or Regional significance.

Upon initial recognition, these assets were recorded at cost in accordance with AASB 116. They were then classified as Land and revalued along with other land in accordance with the other policies detailed in this Note.

Land under roads prior to 1 July 2019

In Western Australia, most land under roads is Crown Land, the responsibility for managing which, is vested in the local government.

Effective as at 1 July 2008, Council elected not to recognise any value for land under roads acquired on or before 30 June 2008. This accords with the treatment available in *Australian Accounting Standard AASB 1051 Land Under Roads* and the then *Local Government (Financial Management) Regulation 16(a)(i)* which arbitrarily prohibited local governments from recognising such land as an asset. This regulation has now been deleted.

In respect of land under roads acquired on or after 1 July 2008, as detailed above, the then *Local Government (Financial Management) Regulation 16(a)(i)* prohibited local governments from recognising such land as an asset.

Whilst such treatment is inconsistent with the requirements of *AASB 1051, Local Government (Financial Management) Regulation 4(2)* provides, in the event of such an inconsistency, the *Local Government (Financial Management) Regulations* prevail.

Consequently, any land under roads acquired on or after 1 July 2008 is not included as an asset of the Shire.

Land under roads from 1 July 2019

As a result of amendments to the *Local Government (Financial Management) Regulations 1996*, effective from 1 July 2019, vested land, including land under roads, are treated as ROU assets measured at zero cost. Therefore, the previous inconsistency with AASB 1051 in respect of non-recognition of land under roads acquired on or after 1 July 2008 has been removed, even though measurement at zero cost means that land under roads is still not included in the balance sheet.

The Shire has accounted for the removal of vested land values associated with the Broomehill golf course by removing the land value and associated revaluation reserve as at 1 July 2019. The comparatives have not been restated.

Vested Improvements from 1 July 2019

The measurement of vested improvements at fair value in accordance is a departure from AASB 16 which would have required the Shire to measure the vested improvements as part of the related ROU assets at zero cost.

Revision of useful lives of plant and equipment

SIGNIFICANT ACCOUNTING POLICIES

Depreciation

The depreciable amount of all fixed assets including buildings but excluding freehold land and vested land, are depreciated on a straight-line basis over the individual asset's useful life from the time the asset is held ready for use. Leasehold improvements are depreciated over the shorter of either the unexpired period of the lease or the estimated useful life of the improvements.

The assets residual values and useful lives are reviewed, and adjusted if appropriate, at the end of each reporting period.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

Gains and losses on disposals are determined by comparing proceeds with the carrying amount. These gains and losses are included in the statement of comprehensive income in the period in which they arise.

Depreciation rates

Typical estimated useful lives for the different asset classes for the current and prior years are included in the table below:

Asset Class	Useful life
Buildings	40 to 50 years
Furniture and equipment	5 to 10 years
Plant and equipment	1 to 15 years
Sealed roads and streets formation	not depreciated
pavement	50 years
seal	
- bituminous seals	20 years
- asphalt surfaces	25 years
Gravel roads formation	not depreciated
pavement	50 years
Footpaths - slab	20 years
Water supply piping and drainage systems	75 years

Depreciation on revaluation

When an item of property, plant and equipment is revalued, any accumulated depreciation at the date of the revaluation is treated in one of the following ways:

- (a) The gross carrying amount is adjusted in a manner that is consistent with the revaluation of the carrying amount of the asset. For example, the gross carrying amount may be restated by reference to observable market data or it may be restated proportionately to the change in the carrying amount. The accumulated depreciation at the date of the revaluation is adjusted to equal the difference between the gross carrying amount and the carrying amount of the asset after taking into account accumulated impairment losses; or
- (b) Eliminated against the gross carrying amount of the asset and the net amount restated to the revalued amount of the asset.

Amortisation

All intangible assets with a finite useful life, are amortised on a straight-line basis over the individual asset's useful life from the time the asset is held for use.

The residual value of intangible assets is considered to be zero and the useful life and amortisation method are reviewed at the end of each financial year.

Amortisation is included within Depreciation on non-current assets in the Statement of Comprehensive Income and in the note above.

SIGNIFICANT ACCOUNTING POLICIES

Trade and other payables

Trade and other payables represent liabilities for goods and services provided to the Shire prior to the end of the financial year that are unpaid and arise when the Shire becomes obliged to make future payments in respect of the purchase of these goods and services. The amounts are unsecured, are recognised as a current liability and are normally paid within 30 days of recognition

Prepaid rates

Prepaid rates are, until the taxable event has occurred (start of the next financial year), refundable at the request of the ratepayer. Rates received in advance are initially recognised as a financial liability. When the taxable event occurs, the financial liability is extinguished and the Shire recognises revenue for the prepaid rates that have not been refunded.

SIGNIFICANT ACCOUNTING POLICIES

Financial liabilities

Financial liabilities are recognised at fair value when the Shire becomes a party to the contractual provisions to the instrument.

Non-derivative financial liabilities (excluding financial guarantees) are subsequently measured at amortised cost. Gains or losses are recognised in profit or loss.

Financial liabilities are derecognised where the related obligations are discharged, cancelled or expired. The difference between the carrying amount of the financial liability extinguished or transferred to another party and the fair value of the consideration paid, including the transfer of non-cash assets or liabilities assumed, is recognised in profit or loss.

Borrowing costs

Borrowing costs are recognised as an expense when incurred except where they are directly attributable to the acquisition, construction or production of a qualifying asset. Where this is the case, they are capitalised as part of the cost of the particular asset until such time as the asset is substantially ready for its intended use or sale.

Risk

Information regarding exposure to risk can be found at Note 22.

SHIRE OF BROOMEHILL-TAMBELLUP
NOTES TO AND FORMING PART OF THE FINANCIAL REPORT
FOR THE YEAR ENDED 30 JUNE 2020

15. EMPLOYEE RELATED PROVISIONS

(a) Employee Related Provisions

	Provision for Annual Leave \$	Provision for Long Service Leave \$	Total \$
Opening balance at 1 July 2019			
Current provisions	168,059	193,163	361,222
Non-current provisions	0	70,009	70,009
	168,059	263,172	431,231
Additional provision	149,250	58,557	207,807
Amounts used	(133,431)	(20,838)	(154,269)
Balance at 30 June 2020	183,878	300,891	484,769
Comprises			
Current	183,878	247,824	431,702
Non-current	0	53,067	53,067
	183,878	300,891	484,769
	2020	2019	
Amounts are expected to be settled on the following basis:	\$	\$	
Less than 12 months after the reporting date	195,899	194,225	
More than 12 months from reporting date	263,604	211,740	
Expected reimbursements from other WA local governments	25,266	25,266	
	484,769	431,231	

Timing of the payment of current leave liabilities is difficult to determine as it is dependent on future decisions of employees. Expected settlement timings are based on information obtained from employees and historical leave trends and assumes no events will occur to impact on these historical trends.

SIGNIFICANT ACCOUNTING POLICIES

Employee benefits

Short-term employee benefits

Provision is made for the Shire's obligations for short-term employee benefits. Short-term employee benefits are benefits (other than termination benefits) that are expected to be settled wholly before 12 months after the end of the annual reporting period in which the employees render the related service, including wages, salaries and sick leave. Short-term employee benefits are measured at the (undiscounted) amounts expected to be paid when the obligation is settled.

The Shire's obligations for short-term employee benefits such as wages, salaries and sick leave are recognised as a part of current trade and other payables in the statement of financial position.

Other long-term employee benefits

The Shire's obligations for employees' annual leave and long service leave entitlements are recognised as provisions in the statement of financial position.

Long-term employee benefits are measured at the present value of the expected future payments to be made to employees. Expected future payments incorporate anticipated future wage and salary levels, durations of service and employee departures and are discounted at

Other long-term employee benefits (Continued)

rates determined by reference to market yields at the end of the reporting period on government bonds that have maturity dates that approximate the terms of the obligations. Any remeasurements for changes in assumptions of obligations for other long-term employee benefits are recognised in profit or loss in the periods in which the changes occur.

The Shire's obligations for long-term employee benefits are presented as non-current provisions in its statement of financial position, except where the Shire does not have an unconditional right to defer settlement for at least 12 months after the end of the reporting period, in which case the obligations are presented as current provisions.

Provisions

Provisions are recognised when the Shire has a present legal or constructive obligation, as a result of past events, for which it is probable that an outflow of economic benefits will result and that outflow can be reliably measured.

Provisions are measured using the best estimate of the amounts required to settle the obligation at the end of the reporting period.

- not later than one year	485,380	4,330,000

The Shire is a participant in the Great Southern Housing Initiative which will deliver Independent Living Seniors and Key Worker accommodation across 7 Shires. The Shire has constructed 4 seniors units and 4 houses, with 2 cabins at the Broomehill Caravan Park and 2 houses due for completion by December 2020

The Shire has also commenced construction of a Fire Station in Broomehill, with an estimated completion date of October 2020.

19. RELATED PARTY TRANSACTIONS

Elected Members Remuneration

The following fees, expenses and allowances were paid to council members and/or the President.

	2020 Actual	2020 Budget	2019 Actual
	\$	\$	\$
Meeting fees	52,000	55,000	52,000
President's allowance	2,000	2,000	2,000
Deputy President's allowance	500	500	500
Travelling expenses	0	1,000	0
Telecommunications allowance	3,500	3,500	3,500
	<u>58,000</u>	<u>62,000</u>	<u>58,000</u>

Key Management Personnel (KMP) Compensation Disclosure

The total of remuneration paid to KMP of the Shire during the year are as follows:

	2020 Actual	2019 Actual
	\$	\$
Short-term employee benefits	434,761	411,366
Post-employment benefits	49,632	46,295
Other long-term benefits	8,758	8,427
	<u>493,151</u>	<u>466,088</u>

Short-term employee benefits

These amounts include all salary, fringe benefits and cash bonuses awarded to KMP except for details in respect to fees and benefits paid to elected members which may be found above.

Post-employment benefits

These amounts are the current-year's estimated cost of providing for the Shire's superannuation contributions made during the year.

Other long-term benefits

These amounts represent long service benefits accruing during the year.

19. RELATED PARTY TRANSACTIONS (Continued)

Transactions with related parties

Transactions between related parties and the Shire are on normal commercial terms and conditions, no more favourable than those available to other parties, unless otherwise stated.

No outstanding balances or provisions for doubtful debts or guarantees exist in relation to related parties at year end.

The following transactions occurred with related parties:	2020 Actual	2019 Actual
	\$	\$
Purchase of goods and services	15,775	44,666
Amounts payable to related parties:		
Trade and other payables	15,775	44,666

Related Parties

The Shire's main related parties are as follows:

i. Key management personnel

Any person(s) having authority and responsibility for planning, directing and controlling the activities of the entity, directly or indirectly, including any elected member, are considered key management personnel.

ii. Other Related Parties

The associate person of KMP was employed by the Shire under normal employment terms and conditions.

iii. Entities subject to significant influence by the Shire

An entity that has the power to participate in the financial and operating policy decisions of an entity, but does not have control over those policies, is an entity which holds significant influence. Significant influence may be gained by share ownership, statute or agreement.

SIGNIFICANT ACCOUNTING POLICIES

Rates

Control over assets acquired from rates is obtained at the commencement of the rating period.

Prepaid rates are, until the taxable event has occurred (start of the next financial year), refundable at the request of the ratepayer. Rates received in advance are initially recognised as a financial liability. When the taxable event occurs, the financial liability is extinguished and the Shire recognises revenue for the prepaid rates that have not been refunded.

SHIRE OF BROOMEHILL-TAMBELLUP
NOTES TO AND FORMING PART OF THE FINANCIAL REPORT
FOR THE YEAR ENDED 30 JUNE 2020

22. FINANCIAL RISK MANAGEMENT

This note explains the Shire's exposure to financial risks and how these risks could affect the Shire's future financial performance.

Risk	Exposure arising from	Measurement	Management
Market risk - interest rate	Long term borrowings at variable rates	Sensitivity analysis	Utilise fixed interest rate borrowings
Credit risk	Cash and cash equivalents, trade receivables, financial assets and	Aging analysis Credit analysis	Diversification of bank deposits, credit limits. Investment policy
Liquidity risk	Borrowings and other liabilities	Rolling cash flow forecasts	Availability of committed credit lines and borrowing facilities

The Shire does not engage in transactions expressed in foreign currencies and is therefore not subject to foreign currency risk.

Financial risk management is carried out by the finance area under policies approved by the Council. The finance area identifies, evaluates and manages financial risks in close co-operation with the operating divisions. Council have approved the overall risk management policy and provide policies on specific areas such as investment policy.

(a) Interest rate risk

Cash and cash equivalents

The Shire's main interest rate risk arises from cash and cash equivalents with variable interest rates, which exposes the Shire to cash flow interest rate risk. Short term overdraft facilities also have variable interest rates however these are repaid within 12 months, reducing the risk level to minimal.

Excess cash and cash equivalents are invested in fixed interest rate term deposits which do not expose the Shire to cash flow interest rate risk. Cash and cash equivalents required for working capital are held in variable interest rate accounts and non-interest bearing accounts. Carrying amounts of cash and cash equivalents at the 30 June and the weighted average interest rate across all cash and cash equivalents and term deposits held disclosed as financial assets at amortised cost are reflected in the table below.

	Weighted Average Interest Rate	Carrying Amounts	Fixed Interest Rate	Variable Interest Rate	Non Interest Bearing
	%	\$	\$	\$	\$
2020					
Cash and cash equivalents	0.60%	4,285,420	0	4,285,420	0
2019					
Cash and cash equivalents	1.90%	2,425,758	0	2,425,758	0

Sensitivity

Profit or loss is sensitive to higher/lower interest income from cash and cash equivalents as a result of changes in interest rates.

Impact of a 1% movement in interest rates on profit and loss and equity*

	2020	2019
	\$	\$
	42,854	24,258

* Holding all other variables constant

Borrowings

Borrowings are subject to interest rate risk - the risk that movements in interest rates could adversely affect funding costs. The Shire manages this risk by borrowing long term and fixing the interest rate to the situation considered the most advantageous at the time of negotiation. The Shire does not consider there to be any interest rate risk in relation to borrowings. Details of interest rates applicable to each borrowing may be found at Note 14(b).

SHIRE OF BROOMEHILL-TAMBELLUP
NOTES TO AND FORMING PART OF THE FINANCIAL REPORT
FOR THE YEAR ENDED 30 JUNE 2020

22. FINANCIAL RISK MANAGEMENT (Continued)

(b) Credit risk

Trade and Other Receivables

The Shire's major receivables comprise rates annual charges and user fees and charges. The major risk associated with these receivables is credit risk – the risk that the debts may not be repaid. The Shire manages this risk by monitoring outstanding debt and employing debt recovery policies. It also encourages ratepayers to pay rates by the due date through incentives.

Credit risk on rates and annual charges is minimised by the ability of the Shire to recover these debts as a secured charge over the land, that is, the land can be sold to recover the debt. The Shire is also able to charge interest on overdue rates and annual charges at higher than market rates, which further encourages payment.

The level of outstanding receivables is reported to Council monthly and benchmarks are set and monitored for acceptable collection performance.

The Shire applies the AASB 9 simplified approach to measuring expected credit losses using a lifetime expected loss allowance for all trade receivables. To measure the expected credit losses, rates receivable are separated from other trade receivables due to the difference in payment terms and security for rates receivable.

The expected loss rates are based on the payment profiles of rates and fees and charges over a period of 36 months before 1 July 2019 or 1 July 2020 respectively and the corresponding historical losses experienced within this period. Historical credit loss rates are adjusted to reflect current and forward-looking information on macroeconomic factors such as the ability of ratepayers and residents to settle the receivables. Housing prices and unemployment rates have been identified as the most relevant factor in repayment rates, and accordingly adjustments are made to the expected credit loss rate based on these factors. There are no material receivables that have been subject to a re-negotiation of repayment terms. The loss allowance as at 30 June 2020 and 30 June 2019 was determined as follows for trade receivables.

	Current	More than 30 days past due	More than 60 days past due	More than 90 days past due	Total
30 June 2020					
Trade and other receivables					
Expected credit loss	0.00%	0.00%	0.00%	0.00%	
Gross carrying amount	22,423	44,360	320	10,950	78,053
Loss allowance	0	0	0	0	0
30 June 2019					
Trade and other receivables					
Expected credit loss	0.00%	0.00%	0.00%	0.00%	
Gross carrying amount	483,761	1,121	1,029	15,144	501,055
Loss allowance	0	0	0	0	0

22. FINANCIAL RISK MANAGEMENT (Continued)

(c) Liquidity risk

Payables and borrowings

Payables and borrowings are both subject to liquidity risk – that is the risk that insufficient funds may be on hand to meet payment obligations as and when they fall due. The Shire manages this risk by monitoring its cash flow requirements and liquidity levels and maintaining an adequate cash buffer. Payment terms can be extended and overdraft facilities drawn upon if required and disclosed in Note 12(c).

The contractual undiscounted cash flows of the Shire's payables and borrowings are set out in the liquidity table below. Balances due within 12 months equal their carrying balances, as the impact of discounting is not significant.

	Due within 1 year	Due between 1 & 5 years	Due after 5 years	Total contractual cash flows	Carrying values
	\$	\$	\$	\$	\$
<u>2020</u>					
Payables	270,872	0	0	270,872	270,872

Borrowings	109,236	411,858	1,093,976	1,615,070	1,160,432
	558,434	414,914	1,093,976	2,067,324	1,612,686

SHIRE OF BROOMEHILL-TAMBELLUP
NOTES TO AND FORMING PART OF THE FINANCIAL REPORT
FOR THE YEAR ENDED 30 JUNE 2020

23. INITIAL APPLICATION OF AUSTRALIAN ACCOUNTING STANDARDS

During the current year, the Shire adopted all of the new and revised Australian Accounting Standards and Interpretations which were compiled, became mandatory and which were applicable to its operations.

The Shire adopted AASB 15 Revenue from Contracts with Customers (issued December 2014) on 1 July 2019 resulting in changes in accounting policies. In accordance with the transition provisions AASB 15, the Shire adopted the new rules retrospectively with the cumulative effect of initially applying these rules recognised on 1 July 2019. There were no adjustments required to amounts recognised in the balance sheet at the date of initial application (1 July 2019).

The Shire adopted AASB 1058 Income for Not-for-Profit Entities (issued December 2016) on 1 July 2019 which will result in changes in accounting policies. In accordance with the transition provisions AASB 1058, the Shire adopted the new rules retrospectively with the cumulative effect of initially applying AASB 1058 recognised at 1 July 2019. Comparative information for prior reporting periods was not restated in accordance with AASB 1058 transition requirements.

Prepaid rates are, until the taxable event for the rates has occurred, refundable at the request of the ratepayer. Therefore the rates received in advance gave rise to a financial liability that is within the scope of AASB 9. On 1 July 2019 the prepaid rates were recognised as a financial asset and a related amount recognised as a financial liability and no income recognised by the Shire. When the taxable event occurred, the financial liability was extinguished and the Shire recognised income for the prepaid rates that have not been refunded. Therefore the initial application of AASB 1058 on 1 July 2019 will not have any impact on the recognition or classification of prepaid rates.

Assets that were acquired for consideration, that were significantly less than fair value principally to enable the Shire to further its objectives, may have been measured on initial recognition under other Australian Accounting Standards at a cost that was significantly less than fair value. Such assets are not required to be remeasured at fair value.

SHIRE OF BROOMEHILL-TAMBELLUP
NOTES TO AND FORMING PART OF THE FINANCIAL REPORT
FOR THE YEAR ENDED 30 JUNE 2020

23. INITIAL APPLICATION OF AUSTRALIAN ACCOUNTING STANDARDS (Continued)

The table below provides details of the amount by which each financial statement line item is affected in the current reporting period by the application of this Standard as compared to AASB 118 and 1004 and related Interpretations that were in effect before the change.

		2020 \$	Adjustment due to application of AASB 15 and AASB 1058	2020 \$
	Note	As reported under AASB 15 and AASB 1058		Compared to AASB 118 and AASB 1004
Statement of Comprehensive Income				
Revenue				
Rates	20(a)	2,503,764	0	2,503,764
Operating grants, subsidies and contributions	2(a)	2,470,027	0	2,470,027
Fees and charges	2(a)	271,611	0	271,611
Non-operating grants, subsidies and contributions	2(a)	4,005,592	0	4,005,592
Net result		3,408,362	0	3,408,362
Statement of Financial Position				
Trade and other payables	12	409,946	0	409,946
Contract liabilities	13	2,292,980	0	2,292,980
Net assets		138,231,034	0	138,231,034
Statement of Changes in Equity				
Net result		3,408,362	0	3,408,362
Retained surplus		38,887,914	0	38,887,914

Refer to Note 2(a) for new revenue recognition accounting policies as a result of the application of AASB 15 and AASB 1058.

The Shire adopted AASB 16 retrospectively from 1 July 2019 which resulted in changes in accounting policies. In accordance with the transition provisions of AASB 16, the Shire has applied this Standard to its leases retrospectively, with the cumulative effect of initially applying AASB16 recognised on 1 July 2019. In applying AASB 16, under the specific transition provisions chosen, the Shire will not restate comparatives for prior reporting periods.

In applying AASB 16 for the first time, the Shire will use the following practical expedient permitted by the standard.

- The exclusion of initial direct costs from the measurement of the right-of-use asset at the date of initial application.

(a) Impact of New Accounting Standards on Retained Surplus

The impact on the Shire's retained surplus due to the adoption of AASB 15, AASB 1058 and AASB 16 as at 1 July 2019 was as follows:

	Note	Adjustments	2019 \$
Retained surplus - 30 June 2019			35,578,443
Retained surplus - 1 July 2019			35,578,443

SHIRE OF BROOMEHILL-TAMBELLUP
 NOTES TO AND FORMING PART OF THE FINANCIAL REPORT
 FOR THE YEAR ENDED 30 JUNE 2020

24. TRUST FUNDS

Funds held at balance date which are required to be held in trust and which are not included in the financial statements are as follows:

	1 July 2019	Amounts Received	Amounts Paid	30 June 2020
	\$	\$	\$	\$
Broomehill Liaison Group	1,244	0	0	1,244
Fire Prevention	4,834	1,000	0	5,834
Youth Support Donations	130	0	0	130
Tourism Donations	44	0	0	44
Roadwise	329	0	0	329
Building Retention Bonds	2,456	0	(2,456)	0
Broomehill Dramatic Society	3,418	0	0	3,418
Rates - held upon sale of property	4,149	0	0	4,149
Unclaimed monies (2003)	1,566	0	(1,566)	0
	18,170	1,000	(4,022)	15,148

SHIRE OF BROOMEHILL-TAMBELLUP
NOTES TO AND FORMING PART OF THE FINANCIAL REPORT
FOR THE YEAR ENDED 30 JUNE 2020

25. OTHER SIGNIFICANT ACCOUNTING POLICIES

a) Goods and services tax (GST)

Revenues, expenses and assets are recognised net of the amount of GST, except where the amount of GST incurred is not recoverable from the Australian Taxation Office (ATO).

Receivables and payables are stated inclusive of GST receivable or payable. The net amount of GST recoverable from, or payable to, the ATO is included with receivables or payables in the statement of financial position.

Cash flows are presented on a gross basis. The GST components of cash flows arising from investing or financing activities which are recoverable from, or payable to, the ATO are presented as operating cash flows.

b) Current and non-current classification

The asset or liability is classified as current if it is expected to be settled within the next 12 months, being the Shire's operational cycle. In the case of liabilities where the Shire does not have the unconditional right to defer settlement beyond 12 months, such as vested long service leave, the liability is classified as current even if not expected to be settled within the next 12 months. Inventories held for trading are classified as current or non-current based on the Shire's intentions to release for sale.

c) Rounding off figures

All figures shown in this annual financial report, other than a rate in the dollar, are rounded to the nearest dollar. Amounts are presented in Australian Dollars.

d) Comparative figures

Where required, comparative figures have been adjusted to conform with changes in presentation for the current financial year.

When the Shire applies an accounting policy retrospectively, makes a retrospective restatement or reclassifies items in its financial statements that has a material effect on the statement of financial position, an additional (third) statement of financial position as at the beginning of the preceding period in addition to the minimum comparative financial statements is presented.

e) Budget comparative figures

Unless otherwise stated, the budget comparative figures shown in this annual financial report relate to the original budget estimate for the relevant item of disclosure.

f) Superannuation

The Shire contributes to a number of Superannuation Funds on behalf of employees. All funds to which the Shire contributes are defined contribution plans.

g) Fair value of assets and liabilities

Fair value is the price that the Shire would receive to sell the asset or would have to pay to transfer a liability, in an orderly (i.e. unforced) transaction between independent, knowledgeable and willing market participants at the measurement date.

As fair value is a market-based measure, the closest equivalent observable market pricing information is used to determine fair value. Adjustments to market values may be made having regard to the characteristics of the specific asset or liability. The fair values of assets that are not traded in an active market are determined using one or more valuation techniques. These valuation techniques maximise, to the extent possible, the use of observable market data.

To the extent possible, market information is extracted from either the principal market for the asset or liability (i.e. the market with the greatest volume and level of activity for the asset or liability) or, in the absence of such a market, the most advantageous market available to the entity at the end of the reporting period (i.e. the market that maximises the receipts from the sale of the asset after taking into account transaction costs and transport costs).

For non-financial assets, the fair value measurement also takes into account a market participant's ability to use the asset in its highest and best use or to sell it to another market participant that would use the asset in its highest and best use.

h) Fair value hierarchy

AASB 13 requires the disclosure of fair value information by level of the fair value hierarchy, which categorises fair value measurement into one of three possible levels based on the lowest level that an input that is significant to the measurement can be categorised into as follows:

Level 1

Measurements based on quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date.

Level 2

Measurements based on inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly.

Level 3

Measurements based on unobservable inputs for the asset or liability.

The fair values of assets and liabilities that are not traded in an active market are determined using one or more valuation techniques. These valuation techniques maximise, to the extent possible, the use of observable market data. If all significant inputs required to measure fair value are observable, the asset or liability is included in Level 2. If one or more significant inputs are not based on observable market data, the asset or liability is included in Level 3.

Valuation techniques

The Shire selects a valuation technique that is appropriate in the circumstances and for which sufficient data is available to measure fair value. The availability of sufficient and relevant data primarily depends on the specific characteristics of the asset or liability being measured. The valuation techniques selected by the Shire are consistent with one or more of the following valuation approaches:

Market approach

Valuation techniques that use prices and other relevant information generated by market transactions for identical or similar assets or liabilities.

Income approach

Valuation techniques that convert estimated future cash flows or income and expenses into a single discounted present value.

Cost approach

Valuation techniques that reflect the current replacement cost of the service capacity of an asset.

Each valuation technique requires inputs that reflect the assumptions that buyers and sellers would use when pricing the asset or liability, including assumptions about risks. When selecting a valuation technique, the Shire gives priority to those techniques that maximise the use of observable inputs and minimise the use of unobservable inputs. Inputs that are developed using market data (such as publicly available information on actual transactions) and reflect the assumptions that buyers and sellers would generally use when pricing the asset or liability are considered observable, whereas inputs for which market data is not available and therefore are developed using the best information available about such assumptions are considered unobservable.

i) Impairment of assets

In accordance with Australian Accounting Standards the Shire's cash generating non-specialised assets, other than inventories, are assessed at each reporting date to determine whether there is any indication they may be impaired.

Where such an indication exists, an impairment test is carried out on the asset by comparing the recoverable amount of the asset, being the higher of the asset's fair value less costs to sell and value in use, to the asset's carrying amount.

Any excess of the asset's carrying amount over its recoverable amount is recognised immediately in profit or loss, unless the asset is carried at a revalued amount in accordance with another Standard (e.g. AASB 116) whereby any impairment loss of a revalued asset is treated as a revaluation decrease in accordance with that other Standard.

For non-cash generating specialised assets that are measured under the revaluation model, such as roads, drains, public buildings and the like, no annual assessment of impairment is required. Rather AASB 116.31 applies and revaluations need only be made with sufficient regularity to ensure the carrying value does not differ materially from that which would be determined using fair value at the ends of the reporting period.

26. ACTIVITIES/PROGRAMS

Shire operations as disclosed in these financial statements encompass the following service orientated activities/programs.

PROGRAM NAME AND OBJECTIVES	ACTIVITIES
<p>GOVERNANCE To provide a decision making process for the efficient allocation of scarce resources.</p>	Includes the activities of members of Council and the administrative support available to the Council for provision of governance of the district. Costs relating to the task of assisting elected members and ratepayers on matters which do not concern specific Shire services
<p>GENERAL PURPOSE FUNDING To collect revenue to allow for the provision of services</p>	Rates, general purpose grants and interest revenue
<p>LAW, ORDER, PUBLIC SAFETY To provide services to help ensure a safer and environmentally conscious community</p>	Supervision and enforcement of various local laws relating to fire prevention, animal control and other aspects of public safety, including emergency services
<p>HEALTH To provide an operational framework for environmental and community health</p>	Inspection of food outlets and their control, mosquito control and maintenance of the Infant Health Clinic in Tambellup
<p>EDUCATION AND WELFARE To provide services to the elderly, children and youth</p>	Assistance to the Broomehill and Tambellup Primary Schools, support of the 'A Smart Start' program
<p>HOUSING To provide and maintain staff housing and accommodation for 'well aged' seniors in the community</p>	Provision and maintenance of staff housing and Independent Living Seniors Accommodation Units
<p>COMMUNITY AMENITIES To provide services required by the community</p>	Rubbish collection services, operation of the tip sites and waste transfer stations, administration of the Town Planning Schemes, cemetery maintenance, public conveniences and protection of the environment
<p>RECREATION AND CULTURE To establish and effectively manage infrastructure and resources which will assist with the social well-being of the community</p>	Maintenance of public halls, recreation grounds, parks, gardens, reserves and playgrounds. Operation of the Broomehill library and support for the Tambellup CRC for management of the Tambellup library. Museums and other cultural activities.
<p>TRANSPORT To provide safe, effective and efficient transport services to the Community</p>	Construction and maintenance of streets, roads and bridges. Cleaning and lighting of streets, maintenance of the Broomehill and Tambellup works depots. Provision of the Department of Transport licensing services to the community.
<p>ECONOMIC SERVICES To assist in promoting the Shire and its economic wellbeing</p>	Tourism and area promotion, including operation of the Broomehill Caravan Park. Provision of rural services including noxious weed control, vermin control and standpipes. Provision of building services.
<p>OTHER PROPERTY AND SERVICES To monitor and control the Shire's works overheads operating accounts</p>	Private works operations, public works overhead costs, plant operation costs and unclassified items.

SHIRE OF BROOMEHILL-TAMBELLUP
 NOTES TO AND FORMING PART OF THE FINANCIAL REPORT
 FOR THE YEAR ENDED 30 JUNE 2020

27. FINANCIAL RATIOS

	2020 Actual	2019 Actual	2018 Actual
Current ratio	1.07	1.97	2.08
Asset consumption ratio	0.64	0.64	0.63
Asset renewal funding ratio	1.83	1.99	0.90
Asset sustainability ratio	1.20	1.75	2.33
Debt service cover ratio	7.97	11.37	5.95
Operating surplus ratio	(0.18)	(0.16)	(0.12)
Own source revenue coverage ratio	0.54	0.43	0.43

The above ratios are calculated as follows:

Current ratio	$\frac{\text{current assets minus restricted assets}}{\text{current liabilities minus liabilities associated with restricted assets}}$
Asset consumption ratio	$\frac{\text{depreciated replacement costs of depreciable assets}}{\text{current replacement cost of depreciable assets}}$
Asset renewal funding ratio	$\frac{\text{NPV of planned capital renewal over 10 years}}{\text{NPV of required capital expenditure over 10 years}}$
Asset sustainability ratio	$\frac{\text{capital renewal and replacement expenditure}}{\text{depreciation}}$
Debt service cover ratio	$\frac{\text{annual operating surplus before interest and depreciation}}{\text{principal and interest}}$
Operating surplus ratio	$\frac{\text{operating revenue minus operating expenses}}{\text{own source operating revenue}}$
Own source revenue coverage ratio	$\frac{\text{own source operating revenue}}{\text{operating expense}}$

Auditor General

INDEPENDENT AUDITOR'S REPORT

To the Councillors of the Shire of Broomehill-Tambellup

Report on the Audit of the Financial Report

Opinion

I have audited the annual financial report of the Shire of Broomehill-Tambellup which comprises the Statement of Financial Position as at 30 June 2020, and the Statement of Comprehensive Income by Nature or Type, Statement of Comprehensive Income by Program, Statement of Changes in Equity, Statement of Cash Flows and Rate Setting Statement for the year then ended, as well as notes comprising a summary of significant accounting policies and other explanatory information, and the Statement by the Chief Executive Officer.

In my opinion the annual financial report of the Shire of Broomehill-Tambellup:

- (i) is based on proper accounts and records; and
- (ii) fairly represents, in all material respects, the results of the operations of the Shire for the year ended 30 June 2020 and its financial position at the end of that period in accordance with the *Local Government Act 1995* (the Act) and, to the extent that they are not inconsistent with the Act, Australian Accounting Standards.

Basis for Opinion

I conducted my audit in accordance with Australian Auditing Standards. My responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Report* section of my report. I am independent of the Shire in accordance with the *Auditor General Act 2006* and the relevant ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants* (the Code) that are relevant to my audit of the annual financial report. I have also fulfilled my other ethical responsibilities in accordance with the Code. I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my opinion.

Emphasis of Matter – Basis of Accounting

I draw attention to Notes 1 and 10 to the annual financial report, which describe the basis of accounting. The annual financial report has been prepared for the purpose of fulfilling the Shire's financial reporting responsibilities under the Act, including the Local Government (Financial Management) Regulations 1996 (Regulations). My opinion is not modified in respect of these matters:

- (i) Regulation 17A of the Regulations requires a local government to measure vested improvements at fair value and the associated vested land at zero cost. This is a departure from AASB 16 *Leases* which would have required the entity to measure the vested improvements also at zero cost.
- (ii) In respect of the comparatives for the previous year ended 30 June 2019, Regulation 16 of the Regulations did not allow a local government to recognise some categories of land, including land under roads, as assets in the annual financial report.

Responsibilities of the Chief Executive Officer and Council for the Financial Report

The Chief Executive Officer (CEO) of the Shire is responsible for the preparation and fair presentation of the annual financial report in accordance with the requirements of the Act, the Regulations and, to the extent that they are not inconsistent with the Act, Australian Accounting Standards. The CEO is also responsible for such internal control as the CEO determines is necessary to enable the preparation of the annual financial report that is free from material misstatement, whether due to fraud or error.

In preparing the annual financial report, the CEO is responsible for assessing the Shire's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the State Government has made decisions affecting the continued existence of the Shire.

The Council is responsible for overseeing the Shire's financial reporting process.

Auditor's Responsibility for the Audit of the Financial Report

The objectives of my audit are to obtain reasonable assurance about whether the annual financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes my opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of the annual financial report.

A further description of my responsibilities for the audit of the annual financial report is located on the Auditing and Assurance Standards Board website at https://www.auasb.gov.au/auditors_responsibilities/ar4.pdf. This description forms part of my auditor's report.

Report on Other Legal and Regulatory Requirements

In accordance with the Local Government (Audit) Regulations 1996 I report that:

- (i) In my opinion, the following material matters indicate significant adverse trends in the financial position of the Shire:
 - a. The Operating Surplus Ratio has been below the Department of Local Government, Sport and Cultural Industries' standard for the past 3 years.
The financial ratios are reported in Note 27 of the annual financial report.
- (ii) All required information and explanations were obtained by me.
- (iii) All audit procedures were satisfactorily completed.
- (iv) In my opinion, the Asset Consumption Ratio and the Asset Renewal Funding Ratio included in the annual financial report were supported by verifiable information and reasonable assumptions.

Other Matter

The annual financial reports of the Shire for the years ended 30 June 2018 and 30 June 2019 were audited by another auditor who expressed an unmodified opinion on those annual financial reports. The financial ratios for 2018 and 2019 in Note 27 of the audited annual financial report were included in the supplementary information and/or audited annual financial report for those years.

Matters Relating to the Electronic Publication of the Audited Financial Report

This auditor's report relates to the annual financial report of the Shire of Broomehill-Tambellup for the year ended 30 June 2020 included on the Shire's website. The Shire's management is responsible for the integrity of the Shire's website. This audit does not provide assurance on the integrity of the Shire's website. The auditor's report refers only to the annual financial report described above. It does not provide an opinion on any other information which may have been hyperlinked to/from this annual financial report. If users of the annual financial report are concerned with the inherent risks arising from publication on a website, they are advised to refer to the hard copy of the annual audited financial report to confirm the information contained in this website version of the annual financial report.
