For this assessment to be completed, a representative from the nominated agent may contact you concerning the financial information that you are required to provide.

The financial assessment is specifically for use by the Principal for the purpose of assessing Tenderers and will be treated as strictly confidential.

1.17 Evaluation Process

Your Tender will be evaluated using information provided in your Tender.

The following evaluation methodology will be used in respect of this RFT:

- Tenders are checked for completeness and compliance. Tenders that do not contain all information requested may be excluded from evaluation.
- Tenders are assessed against the Selection Criteria. Contract costs are evaluated (e.g. tendered prices) and other relevant whole of life costs are considered.
- The most suitable Tenderers may be short listed and may also be required to clarify their Tender, make a presentation, demonstrate the product/solution offered and/or open premises for inspection. Referees may also be contacted prior to the selection of the successful Tenderer.

A Contract may then be awarded to the Tenderer(s) whose Tender(s) is considered the most advantageous Tender to the Principal.

1.18 Selection Criteria

The Contract may be awarded to the Tenderer who best demonstrates the ability to provide quality products and/or services at a competitive price. The Tendered

Part 1 READ AND KEEP THIS PART

prices will be assessed together with qualitative and compliance criteria to determine the most advantageous outcome to the Principal.

The Principal has adopted a best value for money approach to this RFT. This means that, although price is considered, the Tender containing the lowest price will not necessarily be accepted, nor will the Tender ranked the highest on the qualitative criteria.

A scoring system will be used as part of the assessment of the qualitative criteria. Unless otherwise stated, a Tender that provides all the information requested will be assessed as satisfactory. The extent to which a Tender demonstrates greater satisfaction of each of these criteria will result in a greater score. The aggregate score of each Tender will be used as one of the factors in the final assessment of the qualitative criteria and in the overall assessment of value for money.

1.19 Compliance Criteria

The compliance criteria as detailed in Part 3 of this RFT will not be point scored. Each Tender will be assessed on a Compliant/Non-Compliant basis as to whether the criterion is satisfactorily met. An assessment of “Non-Compliant” against any criterion may eliminate the Tender from consideration.

The compliance criteria are to be addressed, and responses must be included in the Tender response by completing Part 3 of this RFT.

1.20 Qualitative Criteria

In determining the most advantageous Tender, the Evaluation Panel will score each Tenderer against the qualitative criteria as detailed in Part 3 of this RFT. Each criterion is weighted to indicate the relative degree of importance that the Principal places on the technical aspects of the Goods or Services being purchased.

It is essential that Tenderers address each qualitative criterion. Information that you provide addressing each qualitative criterion will be point scored by the Evaluation Panel. Failure to provide the specified information may result in elimination from the Tender evaluation process or a low score.

Part 1 READ AND KEEP THIS PART**1.21 Value Considerations**

The Weighted Price method is used where price is considered to be crucial to the outcome of the Contract. The price is then assessed with quality, to including any items that may affect any pricing outcomes.

Criteria	Weighting
Tendered Price	30%

1.22 Price Basis

All prices for Goods and Services offered under this RFT are to be fixed the first twelve months of the Contract. Thereafter, prices will be varied according to the review mechanism as outlined in the General Conditions of Contract.

As an Alternative Tender, Tenderers may propose an alternative review mechanism, which will be considered during the evaluation of the Tenders.

Tendered prices must include the Goods and Services Tax (GST).

Any charge not stated in the Tender as being additional will not be allowed as a charge for any transaction under any resultant Contract.

1.23 Ownership of Tenders

All documents, materials, articles and information submitted by the Tenderer as part of or in support of the Tender will become upon submission the absolute property of the Principal and will not be returned to the Tenderer at the conclusion of the Tender process PROVIDED that the Tenderer be entitled to retain copyright and other intellectual property rights therein, unless otherwise provided by the Contract.

1.24 Canvassing of Officials

If a Tenderer, whether personally or by an agent, canvasses any of the Principal's Councillors (as the case may be) or Officers or Agents with a view to influencing the acceptance of any Tender made by it or any other Tenderer, then regardless of such canvassing having any influence on the acceptance of such Tender, the Principal may at its discretion omit the Tenderer from consideration.

1.25 Identity of the Tenderer

The identity of the Tenderer is fundamental to the Principal. The Tenderer will be the person, persons, corporation or corporations named as the Tenderer

Part 1 READ AND KEEP THIS PART
