'Amazing Race' Series

If you were in Tambellup on Sunday morning 20 March, or Broomehill on Sunday morning 27 March, you may have seen groups of kids and adults on bikes frantically riding around their respective towns with bits of paper and maps - yes, you missed Bike Week!

The Shire was successful in its application to the Department of Transport/BikeWest for funding to hold the two events, which consisted of a set of questions relating to set points in each town. Participants cycled between points to get the correct answers before meeting back at the park for much needed refreshments and lunch. It was fantastic to see the enthusiasm for both of the activities, from the kids, and the adults who participated.

Many thanks to those who came along to ride or walk the trails, and also to shire staff who came along to cook BBQs and generally help out. We look forward to holding a similar style of event in the future.

SWIMMING POOL CLOSING DATE

BROOMEHILL BOWLING CLUB

Well the pennant season has come to an end, on Saturday and Sunday 26/27th of March, the finals were held in Broomehill. On Saturday Nyabing defeated Gnowangerup White in the first semi final and Broomehill accounted for Gnowangerup Red, Gnowangerup Red then overcame Nyabing, setting up a Grand Final between Broomehill and Gnowangerup Red on Sunday. With very good weather conditions and a very quick green the promise was there for a good contest unfortunately were unable to do so and Gnowangerup Red won by 5 shots. It was a disappointing end to the season for Broomehill as we lost only two games through the season and unfortunately one of those was the grand final.

RESULTS

Second Semi Final: Broomehill 69 to Gnowangerup Red 54

Jim Paganoni (skip), Greg Blake, Kim Gartery and David Kempin won 19 to 17

John Dye (skip), Brian Sanger, Bob Vesey and Phil Russell lost 15 to 26

Graeme Jose (skip), Nathan Haynes, Ross Thomas and Kevin Winspear won 35 to 11

Works in March

Road works are still underway on Pallinup South Rd, with resheeting being completed to a 6km section and the next 3km section being widened prior to resheeting. People travelling in this area are asked to take care and observe road works signage.

The finishing touches have been applied to the new Broomehill pathway, with solar light bollards being installed along the length, along with bollards and chains as required by WestNet Rail. The solar panels and post will be installed in the near future.

The gardens in both towns are looking fantastic at the moment, thanks to the efforts of Council's parks and gardens crew. Something to keep an eye on is the establishment of 'rain gardens' at the University block in Broomehill. This process is an innovative approach to the management of water runoff, and will assist with drainage in the area. To add to the appeal at Holland Park, a picnic setting will be installed in the play area to give parents and carers somewhere to rest their coffee while the kids are hard at it.

Women's Educate and Inspire Field Trip – Ladies Day Out

The Ladies Day Out field trip was a great success. We had 47 ladies participate on the day with a great diversity of ages and experience. We had participants from as far as Perth, Narrogin and Manjimup attending on the day. There were a variety of stops along the day to allow participants to see the variety of enterprise in the region, Ringwood Dairy was especially interesting as we were on time to view the goats milking, and this was followed by some cheese samples from Ringwood. The ladies responded very well to the talk from Claire Bartron from Birds Australia on the plight of the Carnaby's Black Cockatoo. Wendy Duncan MLC was the guest speaker for the evening meal, and she offered a truly entertaining and thoughtful speech on her experiences. Wendy is the National party member for mining and pastoral in the Esperance region, who grew up on a station and now mixes with our political heavyweights. The food provided on the day was sensational. The long table lunch was provided by Gourmet Grub, they also provided morning and afternoon tea which had a delectable array of goodies. Dinner was hosted by Gilberts Winery, who did a fantastic carvery dinner. We would like to thank our sponsors Bendigo Community Banks of Mt Barker, Albany and Cranbrook/Tambellup, along with the Great Southern Development Commission. These sponsors along with the federal funding from the Caring for Our Country project were imperative to the success of the day.

Productive Saltland Pastures Forum

After last year's very successful forum on improving saltland productivity, we are again hosting the forum in 2011. We are looking to do this in July, and it will follow in a very similar format to the previous two day forum we held. There will be informative sessions along with on the ground activities to increase awareness of methods to reclaim salt affected areas. This two day forum also has an on line component to complete prior to the event which will ensure participants have a baseline of knowledge that they can build from during the event. We will be advertising the event soon so stay tuned to get the dates in July. If you would like to register your interest in attending, you can do so now by contacting me at Gillamii.

Red Card for the Red Fox

We have been successful in acquiring a small amount of funding to go toward fox baiting. We will be providing funds for the purchase of fox baits. The landholder will still be required to go through the 1080 handling process required through DAFWA. Landholders once completing their 1080 certification can purchase dried meat baits or impregnated oats through Elders. Landholders can then provide us with their purchase invoice for reimbursement. Please register with us if you would like to utilise this funding as we have a limited amount of funds on offer.

Lime

Do you want to know about different lime sources, how they work and their cost effectiveness? Then the FREE publication 'Soil Acidity: a guide for WA farmers and consultants' is for you. The guide also provides all the necessary information for effective management and understanding of soil acidity. Plus the guide includes how to access information about lime suppliers and their quality test results. For your copy contact Kelly.

Will your Stored Seed Germinate?

Have you got seed stashed away that you are thinking of using this year? Do you know if it will germinate? Grain with lower germination produces seedlings with slower & more variable emergence. If you're not sure, maybe a sampling kit is for you. The kits are FREE and include sample bags, a self addressed envelope, the necessary forms, and the price list for the AGWEST Plant Laboratories. For a FREE kit, contact Kelly. 0417 837 983

Keep an eye out for sheep worms

The best way to check for worms is to do faecal worm egg counts. A short video clip on how to do the egg counts is available from Kelly or check the Wormboss website at www.wormboss.com.au

Erosion – don't push the limits

Be aware of the amount of groundcover in your paddocks. The rule of thumb is you need at least 50% groundcover or a feed on offer (FOO) level of about 1000kg DM/ha – if it gets below this grazing shouldn't be continued.

Legumes and grasses for saltland

DAFWA has just released a new FarmNote that provides information on pasture legumes and grass options (annual and perennial) for saline land. Cultivars for different levels of salinity, waterlogging, soil texture and pH are provided for the range of rainfall zones. You can download this publication from the DAFWA website at www.agric.wa.gov.au. (Go to Publications, then Farmnotes. Under Farmnotes by year, click on '2010' and then number 432: Pasture legumes and grasses for saltland) or call Kelly. 0417 837 983

Info for your 2011 Crops

The Dept has a new booklet titled '2011 Planning Ahead: A guide for your cropping program'. Included in the FREE booklet are sections on taking stock of your finances, key success factors for 2011, tables outlining how dry conditions during 2010 will impact on the 2011 season (eg. Weeds, diseases, nutrition, etc), three scenarios for 2011 (eg. summer rain, an early break and a late break) and the issues you will need to consider with each of these scenarios, wheat on wheat for 2011, plus more. For your FREE copy contact Kelly. 0417 837 983

How do perennials perform?

Currently in its 7th year, the Grazing Systems Analysis (GSA) project at the Mt Barker Research Station is measuring the effects on production, profitability and sustainability of a sheep-meat enterprise after establishing perennial pastures. Two adjacent paddocks have been internally fenced into smaller paddocks to represent a miniature farm. One 'farm' runs annual pastures only and the other has had perennial pastures sown into it. For more information about the project, results to date including monthly updates, and short video clips go to www.grazingsystemsanalysiswa.com or contact Kelly

Budgeting your feed during Autumn

As quantity and quality of pasture is low and falling, and will continue to do so until several weeks after the 'break' of the season, its important you keep feed and water up to your sheep to prevent inadequate nutrition. There are a couple of tools which can help you with this – the *Feed Budget Tables for Dry Conditions* and the *Feed Budget Tables for the Break of the Season*. These tools are very easy, step by step tables, to ensure you are feeding your sheep for maintenance or for managing your ewes to targets over pregnancy & lactation. If you would like a copy of either or both of these FREE tools, contact Kelly.

KATANNING & DISTRICTS GARDEN CLUB

Our second club meeting for 2011 was held at the home of Irene Matthews, 48 Braeside Road Katanning on Tuesday 8th March with 13 members in attendance. A wall mirror falling from its hook the day before didn't spook those present but Irene was open to suggestions of how to mend her antique hall stand! Thank you for your open home Irene and we hope you have been able to get your hall stand repaired. President Gerry Watson chaired the meeting and as usual presented a number of practical garden hints - some of which are included in this report for all keen gardeners to use if they so desire. Our March meeting included the popular bi-monthly swap a plant segment. The monthly raffle was won by Pam Garlick. The new club concept re raffles is that the winner is responsible for supplying a raffle prize for the next meeting. It doesn't have to be anything bought - it doesn't have to be anything to do with gardening - can be a potted plant, a novelty, or a batch of biscuits! It is your free choice.

March competition Results:-

Tree/shrub or specimen (Dahlia): 1st, 2nd & 3rd - Bess Parrott. Floral Art - Still Life: 1st - Gerry Watson; 2nd - Helen Bignell; 3rd - Karen Bessell-Browne. My Best Flower: 1st - Helen Bignell; 2nd - Anne Rees; 3rd - Bess Parrott. Specimen Rose: 1st - Irene Matthews; 2nd - Pam Garlick; 3rd - Gerry Watson. Pot Plant /Hanger: 1st - Ailsa Thomas; 2nd - Pam Garlick; 3rd - Gerry Watson. Fruit/Veg: 1st & 2nd - Anne Rees

Autumn Garden Tips:

- (1) Give all your plants a good feed and they will be sure to reward you with healthy flowers, produce and foliage.
- (2) Because daytime temperatures are still remaining quite high ferns will still need to be watered but not saturated. Remember to give the fronds time to dry off before nightfall because wet fronds can promote fungal growth.
- (3) Sow succulent seeds and propagate cuttings. This is also a good time to repot cacti.

NEXT MEETING:

At the home of Pam Garlick, 9 Clive Street Katanning 1:30pm Tuesday 12th April 2011. All most welcome. (Members please note the floral art competition is Inverted Crescent). Club members have agreed to donate any flowers they have available to the Katanning Historical Societies Cemeteries Day being held at the cemetery on Palm Sunday 17th April 11am - 3pm.

SPECIAL GUEST SPEAKER—For our April meeting our guest speaker will be Hilary Bilney from Kojonup discussing the topic; The growing of geraniums and iris's.

For more information please feel free to contact Pres. Gerry Watson 9821 1648 or Sec. Ailsa Thomas 9821 1828

24 February 2011—Crook praises R4R support for Childcare

The R4R funding has provided a commitment to cover costs for 21 Neighbourhood Model occasional child care centres which will provide certainty for centres located in regional WA. This means the doors will remain open and ensure regional WA do not miss out on vital services.

25 February 2011—Flood levy vote was in best interests of all, not some: Crook

Federal Member for O'Connor Tony Crook MP has refuted accusations that his vote in favour of the flood levy is a vote to 'slug Western Australians'.

We need to remember that this is Australia's largest natural disaster in economic terms and it is beholden upon us to ensure we act swiftly.

I'd certainly like to think that if a natural disaster happened to regional WA the rest of Australia would come to our aid.

Have you tried REIKI??

Reiki is a Japanese technique for stress reduction and relaxation that also promotes healing. It is administered by "laying on hands" and is based on the idea that an unseen "life force energy" flows through us and is what causes us to be alive. If one's "life force energy" is low, then we are more likely to get sick or feel stress, and if its high, we are more capable of being happy and healthy.
