COMMUNITY NEWS

*Thank
You*

THANK YOU!

Thank you for the messages, cards and support after the passing of my Dad recently.

They are very much appreciated.

Many thanks - Jo Taylor and Family

Tambellup Hockey Club AGM

17th of February 2022

6:30pm

At the Tambellup Pavilion.

Notice of Annual General Meeting

Broomehill Netball Club AGM

Wednesday 2 March 2022

7pm

Broomehill Recreational Complex

All members and interested players welcome. Please contact Rachael on 0408 938 184 with any queries

Thank you!

I would like to thank all those who called in on January 6th to share tea and cake with me to celebrate my 90th birthday. Thank you to everyone for cards, flowers, scratchies and good wishes personally or on facebook. Special thanks to the Tambellup Cake Decorating girls who produced such a beautifully decorated cake for the occasion. What a masterpiece!!

Too special to cut

Thanks to my lovely family who travelled many miles to share the occasion with me

I feel so lucky

Gloria Hilder

INTERAGENCY MEETING

The next Interagency meeting at the Tambellup CRC will be held on the 14th February from 1.30pm

Did you know that local community events/announcements in the Topics are free??
If you have an announcement or a congratulations we'd love to hear about it and share it for you!
(We love to hear how the local sporting clubs went throughout the year)

**Parents, Carers,
and Families
Community Survey
2022**

Supported by the Australian Government

Are you a Parent or Carer of a child/children aged 0-12yrs?

We want to hear from you!

The Communities for Children team at Amity Health would like to hear your thoughts, ideas, and experiences about the services and activities for children and families within your community.

Simply go to the app or your camera and scan the QR code or follow the link below

Enter the prize draw for your chance to win 1 of 3 Coles/Woolworths/IGA vouchers worth \$200 each. Simply complete the online survey, fill in the entry details and the lucky winners will be contacted shortly after the closing date of 28th February 2022.

SHIRE OF BROOMEHILL-TAMBELLUP
46 – 48 Norrish St, Tambellup WA 6320
Phone: 9825 3555 Fax: 9825 1152 Email:
mail@shirebt.wa.gov.au

The next Ordinary meeting of the Council will be held on Thursday 17 February 2022 commencing at 3.30pm, at the Tambellup Council Chambers. Members of the public are welcome to attend all Council meetings, however physical distancing requirements limit the number of people able to be present. If you plan to attend a Council meeting, we encourage you to contact the Shire on 9825 3555 to register before the meeting.

SHIRE WELCOMES ACTING CHIEF EXECUTIVE OFFICER

Following the departure of former CEO Chris Jackson from the Shire in December due to health concerns, the Council is pleased to welcome incoming Acting CEO Rob Stewart. Mr Stewart is well known in local government circles in the region, having enjoyed a long stint as CEO at the Shire of Plantagenet. He has more recently filled temporary CEO roles at a number of regional local governments.

Mr Stewart commenced with the Shire on Monday 10 January 2022 and will be in the role until a substantive CEO is appointed.

COVID-19

Don't become complacent - keep yourself and your family members safe, by continuing to implement the following measures:

- practise physical distancing (keep at least 1.5 metres or two arms lengths from each other)
- practise good personal hygiene (wash hands often with soap and water, or hand sanitiser and cover coughs and sneezes with a tissue or use your elbow)
- stay home if unwell, and if you are experiencing flu-like symptoms, get tested for COVID-19
- download the Service WA app for quick and easy venue check-ins – available from the Apple App Store or Google Play Store.

It is recommended you rely on reputable sources of information for updates as the matter evolves, including:

- WA State Government COVID updates - <https://www.wa.gov.au/government/covid-19-coronavirus>
- For COVID-19 fact sheets and FAQs - <http://www.health.gov.au/resources>
- Western Australian Department of Health - <https://ww2.health.wa.gov.au/>

FROM THE DECEMBER COUNCIL MEETING

Late in 2021, local governments were invited to provide feedback on the Local Government Reforms currently being considered as part of the Local Government Act Review. At the December meeting, the Council resolved to provide feedback to the Department of Local Government, Sport and Cultural Industries and the WA Local Government Association.

The Council determined to adopt a Town Planning Scheme amendment (for the purpose of advertising), to change the zoning of the former bowling club site in Tambellup and adjacent vacant lots from 'Special Use' to 'Town Centre'. The amendment will be advertised for public comment in due course.

Minutes of the December 2021 Council meeting are available on the Shire's website www.shirebt.wa.gov.au

WORKS

While most of the works crew took leave over December and January, a small team remained on duty to respond to incidental matters that arose.

Before Christmas, works continued on Toolbrunup Rd, where reconstruction and sealing of a section to Tallents Rd is progressing. Clearing and clean up along this stretch has been completed, and culvert extensions and pegging of the job commenced. We thank everyone for their patience while our staff were working on site during harvest, and advise that works will recommence late in January. If you are traveling in the vicinity please be aware of workers on site and observe warning signage.

Our green spaces appeared to cope well with the spate of hot weather over December and January, thanks to the efforts of parks and gardens staff. Unfortunately the Broomehill Oval got a little dry, due to the failure of the pump over Christmas. The pump has since been replaced, and with regular watering, we hope it will recover within a short period. A new reticulation system is being designed for the Broomehill Recreational Complex, which will include the new landscaping incorporated into the accessibility upgrade works, as well as existing lawn and gardens.

At the December Council meeting, the Council resolved to accept a tender from Albany City Motors for the purchase of an Isuzu six wheel truck with two-way tipping body, to replace the current Isuzu beaver tail truck. This purchase is consistent with the Council's Ten Year Plant Replacement Program, which ensures a modern, well maintained fleet is maintained.

Work has commenced on a new carpark at the Broomehill Primary School with the site formed up and gravelled ready for sealing. We anticipate the bitumen trucks will be onsite early in February to seal the area. Kerbing and line marking will also be completed. The new car park will enhance the safety of the area, providing defined parking, one way traffic flow, separate school bus entrance, disabled parking, 'kiss and drop' zone and a safe pathway to the school for students.

EMERGENCY MANAGEMENT INITIATIVES

The Shire has been fortunate in recent months to be able to access two programs that will enhance its ability to support the community during an emergency.

Funding was received from the *National Disaster Resilience Program* for the purchase of a 33kva generator permanently mounted on a trailer, and electrical work at the Broomehill Recreational Complex, Broomehill Works Depot, Tambellup Community Pavilion and Tambellup Works Depot. The generator will allow these sites to be powered during an emergency if there is a power outage – especially relevant to the Complex and Pavilion, which are the Shire's nominated welfare centres in the case of an emergency evacuation. The Council appreciates the support of the State Emergency Management Committee, which administered this program in WA.

The other program which the Shire has been able to access is the Australian Government's *Strengthening Telecommunications Against Natural Disasters (STAND)* program, which has seen NBN satellite-connection devices installed at the Broomehill Recreational Complex and Tambellup Community Pavilion. During an emergency, these devices will provide internet and phone access even if the Telstra or Optus services have failed. The program has been supported by DFES and the WA Government.

While we sincerely hope our community is not placed in a situation where we need to test these initiatives, it is reassuring to know they are available to support our residents during difficult times.

DROUGHT COMMUNITIES PROGRAM UPDATE

Holland Park Nature Playground

....And it's finished!! Have your kids checked it out yet? We believe it was a popular spot over the holiday break, with locals and visitors alike. Our thanks to contractor James McLean and crew from South Coast Nature Play for the excellent job, with the installation finished just in time for school holidays. The new equipment, which includes an all-abilities swing and a timber bridge across the creek, is purposely 'rustic' in design, which will ensure it lasts for many years with minimal maintenance required. We are aware the site is a bit of a dust bowl at present, and we will be backfilling the gaps with additional wood chip mulch in coming weeks to resolve the issue.

We think the tractor provides a nice introduction to the now-celebrated Horsepower Highway which starts at the Broomehill-Gnowangerup Rd – the question is, does our tractor need a name? Suggestions welcome, contact the Shire by email – mail@shirebt.wa.gov.au!

Broomehill Recreational Complex Accessibility Upgrade

The Complex worksite was a hive of activity prior to Christmas, with work underway to construct the ramps from the Oval, and installation of the limestone block terracing. Contractors are back on site after the break, and works are proceeding well.

Broomehill Town Centre Upgrade

The contract for the works to be undertaken at the intersection of Journal St and Great Southern Highway has been awarded to Environmental Industries, with work due to commence at the end of January 2022. Initially the project was purely a street scaping exercise, involving paving, plantings and street furniture, however it became apparent that the existing design of the intersection does not comply with Main Roads standards for heavy vehicle access. The designs have now been modified, and the ensuing works will provide safe access for all road users, as well as improving the streetscape. We look forward to this project commencing.

Holland Track Interpretive Centre

We are advised the consultants have completed the research phase of the project, and are now working on content for the panels to be installed under the new gazebo, which will be positioned adjacent to the Broomehill Museum. The project also includes signage for a townsite heritage walk trail, and the content for these panels is being developed. Staff will be working closely with the consultants, the Council and the Broomehill Heritage Group, to ensure the resulting interpretation is appropriate.

Water Efficiency Projects

We are anticipating the installation of the second tank, to be located adjacent to the Tambellup Works Depot on Donald St, in the next few weeks. A standpipe controller will be installed on the tank, providing another public water outlet, and completing this project.

IT'S STILL BUSHFIRE SEASON

All residents are advised the **PROHIBITED** burning period is in place until **14 FEBRUARY 2022** inclusive. No burning is permitted during this period.

The **RESTRICTED** burning period applies from **15 FEBRUARY 2022** until **15 APRIL 2022**. Permits to light fires are required to be obtained during this period, through your Brigade Fire Control Officer. February often presents the most challenging conditions for our volunteer brigades, with extremes of weather the norm. Please remain vigilant when working outdoors, or with anything that may cause a fire.

COUNCIL AGENDAS AND MINUTES

Agendas and Minutes from every Council and Council Committee meeting are available at the Shire Administration Offices and Tambellup Community Resource Centre, for perusal. These documents are available in alternative formats, on request, for people with disability.

Council Agendas and Minutes can be accessed online by browsing to www.shirebt.wa.gov.au and clicking on the 'Our Shire' tab.

FEEDBACK

We welcome feedback from our residents and customers. If you would like to provide feedback on Shire related matters, there are a number of ways you can do this:

- Attend in person at either of our administration offices – 9.00am – 4.00pm Monday to Friday
- Write to us at 46 – 48 Norrish St, Tambellup 6320;
- Phone us on 08 9825 3555
- Fax us on 08 9825 1152; or
- Email us at mail@shirebt.wa.gov.au

Unfortunately we are unable to act on anonymous complaints. For all methods, please include your name and contact details so we are able to respond to you.

ServiceWA

App Support

Need help getting the new ServiceWA app set up on your device?? We can help!!

(ServiceWA combines SafeWA and your proof of vaccination in one app)

**Call and book an appointment with the
Tambellup CRC Staff on 9825 1177**

You will need:

- **An email address** (personal, not shared - once an email is linked to an account it cannot be used to create another account, one email per person)
- **A smartphone/device** (including App Store or Play Store account details - you will need to download a couple of apps)
- **Your myGov account details with medicare linked** (if you don't have a myGov account or medicare linked, you will need your medicare card and bank account details),
- **2 pieces of ID** (passport, driver's license, medicare card, birth certificate)

Don't have an email address or a myGov account, don't worry we can help you create these as well

Don't have a smart phone??

Bring your proof of vaccination/immunisation history statement in and we can reduce the size and laminate to fit in your purse/wallet

Tambellup Australia Day 2022

Once again Australia Day celebrations were hosted by the Tambellup Bowling Club.

The flag raising ceremony was followed by the bowling "spider".

This year's winner was the one arm bandit Jimmy Hull.

Lunch, sponsored by the Shire preceded the Cancer Foundation bowls event.

In a tight finish, the Perpetual Trophy sponsored by the CWA was won by the team of J Hull, G Sheridan and J Harder.

Thanks to the sponsors and supporters for an enjoyable day of celebration and social bowls.

REMINDER TO VOLUNTEER BUSH FIRE BRIGADE MEMBERS

COVID-19 VACCINATION MANDATE

As previously communicated, a State Government COVID-19 mandate issued on Friday 12 November 2021, requires all Volunteer Bush Fire Brigade members to be fully vaccinated by 31 January 2022 to be able to attend a fire.

The Public Health Directions place obligations on both the Shire of Broomehill-Tambellup and individuals to comply. Breaches of a Public Health Directions Notice is an offence and could result in a fine of up to **\$20,000** for individuals or **\$100,000** for bodies corporate.

What does this mean for the Shire of Broomehill-Tambellup?

The Public Health Directions place an obligation on the Shire to Broomehill-Tambellup to:

Ensure Bush Fire Brigade Volunteers who are unvaccinated by the required date do not attend fire and emergency services sites in breach as identified in the Public Health Directions.

The Shire must keep a register which details the COVID-19 vaccination status of its volunteers.

What does this mean for you?

The Public Health Directions place an obligation on individual Bush Fire Brigade Volunteers to:

Not attend sites in breach of the Public Health Direction; and
To provide evidence of their vaccination status to the Shire.

If you are not yet vaccinated:

We strongly encourage you to get vaccinated as a matter of priority. Access to vaccine is now widespread, with clinics running locally in Katanning and surrounding communities. To find a clinic and make a booking, go to: <https://covid-vaccine.healthdirect.gov.au/booking/> . Alternatively, speak to your GP.

If you have been vaccinated:

If you have already received at least two COVID-19 vaccinations, then please provide evidence of your vaccination status via email to mail@shirebt.wa.gov.au .

Any private medical information you provide to the Shire will be kept confidentially in accordance with the Australian Privacy Principles and stored in a secure records file.

The mandate places the Shire in a difficult position, in acknowledging and appreciating the value of volunteers in our community, and having to place mandatory requirements upon you. We thank you for your understanding. Please appreciate we are implementing State Government Directions. If you have any queries or concerns, please contact the Acting Chief Executive Officer on 9825 3555.

Rob Stewart

Acting Chief Executive Officer

DEC. 2021

COMMUNITY, CARBON & CONSERVATION

BUILDING RESILIENT LANDSCAPES BY EMPOWERING FARMERS TO REHABILITATE MARGINAL LAND, DIVERSIFY INCOME AND CONSERVE BIODIVERSITY

"It's has been a good way to begin restoring biodiversity on our farm and make a future income of our marginal land, it is helping to diversify our farming business and build our on-farm resilience" - Project Farmer

The grassroots approach

BY FREYA SPENCER, GILLAMII

In October the Prime Minister announced a long-awaited commitment to reach net zero emissions by 2050. This follows on from other key announcements earlier this year such as Meat and Livestock Australia's Carbon Neutral by 2030 (CN30) publication in March and the State Government's \$15m investment in a new Carbon Farming and Land Restoration fund in July.

Net Zero is a term that often gets used with limited information on what it really means, or how it can be achieved both on-farm and nationally. For Australia, Net Zero 2050 means that by year 2050, the amount of carbon dioxide Australia is removing from the atmosphere will have to be the same as, or more than, the amount it is emitting. It is unsure at this stage what Net Zero 2050 will mean for the agricultural industry and individual producers but with 14% of Australia's greenhouse gas emissions coming from the sector, it is safe to say that any industry or government legislative change will have

widespread impact. Global net zero targets have also opened the door to an increased investment into the Australian Carbon Farming Industry.

In 2020, this increased investment coincided with a prolonged decreased investment in the Landcare sector and lead Gillamii, North Stirlings Pallinup Natural Resources (NSPNR) and Threshold Environmental to develop a partnership to empower farmers to rehabilitate marginal land, diversify income and conserve biodiversity. This initiative is now known as the Community, Carbon and Conservation Project. The project focuses on sequestration through biodiverse native plantings, with an emphasis on grassroots collaboration. Working with a group of progressive farmers, the project is currently underway restoring 550ha of marginal land through biodiverse carbon plantings with ecological restoration leader, Threshold Environmental. The project also encompasses 55km of protective fencing for the large-scale restoration sites, delivered by Gillamii and NSPNR, funded by the Western Australian Government's State NRM Program. Marginal land is land that traditionally has little or no agricultural value, however with

projects such as this one, marginal land can now offer farmers a new financial opportunity through diversified income, while also addressing on-farm environmental and production issues such as salinity, wind erosion and soil health.

In this project, diversified income is derived from the production (though the growth of vegetation) and sale of Australian Carbon Credit Units (ACCUs), which are formalised after each reporting period throughout the lifetime of the project. One carbon credit is the equivalent of one tonne of carbon dioxide gas, written as tCO₂e. ACCUs are essentially a unit of currency, which can be purchased in Australia to offset national emission requirements. The amount of ACCUs produced by a project depends on a multitude of factors such as the location, size and duration of the project (25 – 100 years). This has recently been a point of focus in news headlines as the price of ACCUs has more than doubled this year, with the spot price reaching a record high of \$36.50 in October 2021.

-  **Rehabilitating Marginal Land**
-  **Diversifying Income**
-  **Conserving Biodiversity**

As Net Zero targets formalise, ACCU value is rising, as large corporates seek to offset their emissions to comply with new targets. ACCUs can currently only be traded domestically in Australia, in Europe, during September 2021 the carbon price broke \$100 (€64) a metric tonne, with New Zealand reaching over \$60 (\$NZ65) a tonne. The more ambitious the country's Net Zero target, the higher the carbon price. With discussions of international trade arrangements being developed in the coming years, it is not unrealistic to expect ongoing fluctuations in the price of carbon.

The development, registration and management of Carbon Farming projects can seem complex to someone not familiar with the industry and for this reason individuals often partner with carbon service providers. These providers offer a variety of financial partnerships such as leases on land or a share in the ACCUs produced. To maximise local benefit, the Community, Carbon and Conservation project is being established and managed by Threshold Environmental with landholders maintaining the majority share of the credits produced.

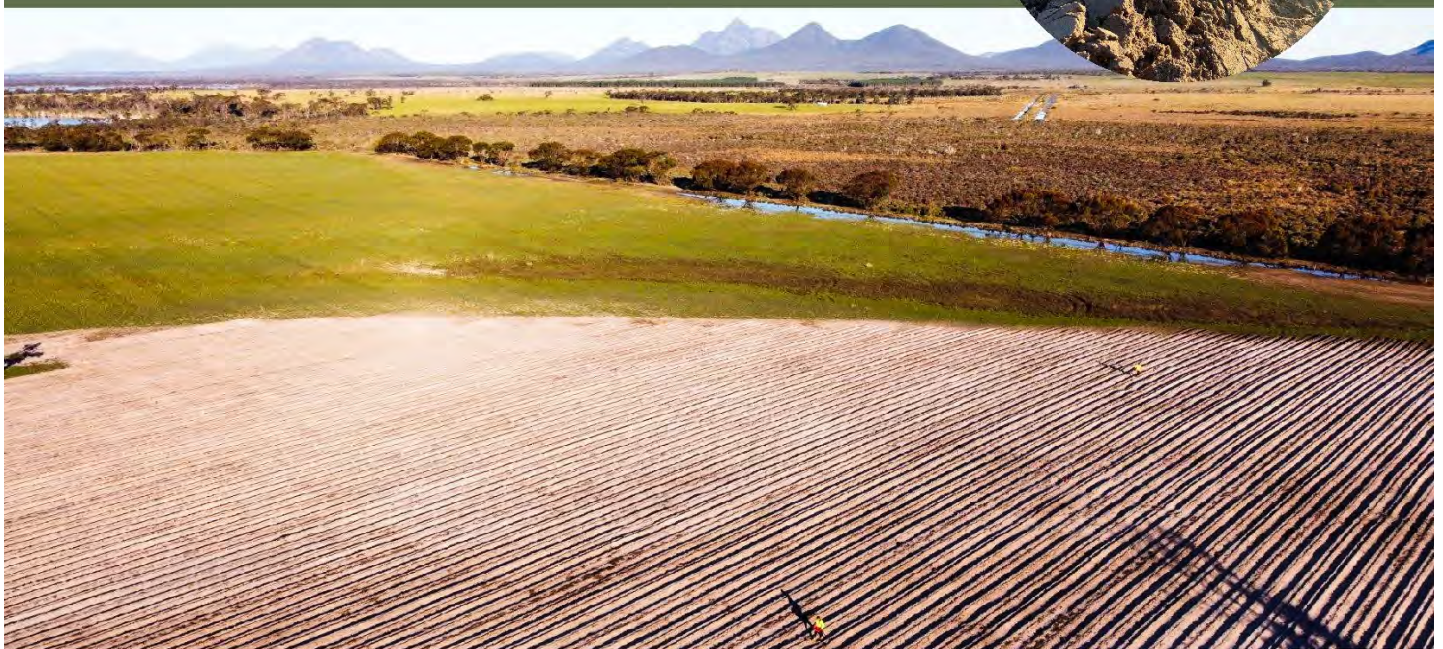

The development of the Community, Carbon and Conservation project from

the grassroots has allowed both Gillamii and NSPNR, as local grower groups, a unique opportunity to be involved in a large-scale Carbon Farming project. As the first year of the project reaches completion it has emphasized the complexity involved and the need for community involvement in both the development and establishment phase of the project. Each farmer has a different motivation, succession plan and piece in the landscape which cannot be overlooked and needs careful consideration. The project has also highlighted the need for increased industry education and awareness in regional communities. Competition among carbon service providers is strong, which means landholders have a range of options available to consider. Understanding the drivers of demand, limitations on supply and the associated risk is as important when making carbon farming decisions as it is within grain and livestock markets. It is important to understand the difference between generating carbon credits to offset industry emissions or generating credits for future on-farm offsets. If you're using your land to offset for a polluting entity, it can't also be used to offset your own on-farm emissions. Carbon Sink plantings are just one method for reducing overall on-farm carbon emissions and other options such as soil carbon, reducing livestock

emissions and reforestation are currently being established throughout the sector.

For Gillamii, NSPNR and Threshold Environmental, future years of the project will focus on strengthening current relationships with project farmers, taking time to assess the biodiversity outcomes of the large-scale plantings, as well as one-on-one training to assist each individual farmer to understand how to manage the ACCUs produced from the project over time. Resources will also be focused on baselining farms to understand net emissions and provide impartial assistance to individuals considering carbon farming projects, with hopes of empowering farmers to understand the complex industry, its risk and its potential.

For more information, please contact Freya Spencer at admin@gillamii.org.au

Building resilient landscapes by empowering farmers to rehabilitate marginal land, diversify income and conserve biodiversity.

This project is a collaboration between the Gillamii Centre, North Stirlings Pallinup Natural Resources and Threshold Environmental. This project is supported in part, by funding from the Western Australian Government's State NRM Program and Threshold Environmental. The project also acknowledges the commitment and involvement from all partner landholders.

Relationships Australia®

WESTERN AUSTRALIA

Introduction for Topics

KidCare

Hello my name is Pearl Draper, and I am pleased to announce that I have commenced working for Relationship's Australia WA (RAWA) as a counsellor for the *KidCare* program in Tambellup. I work alongside Kerry Smith who is the Aboriginal Resource Worker. KidCare is an Aboriginal Community Support Program that aims to provide a safe place in which to help Aboriginal community members (individuals and their families) to address the many issues that face families today. Our service is free and we respect the privacy of clients. I can be contacted on 6164 0653. Kerry can be contacted on 6164 0655 or mobile 0488 914 873. Our workplace (office) is called Lynthia's Place, and is on the corner of Garrity Street and Tambellup West Road, Tambellup. You can also contact us on our email addresses kerry.smith@relationshipsqa.org.au and pearl.draper@relationshipsqa.org.au.

RAWA delivers programs during school terms in Katanning on Mondays at Kobeelya and in Tambellup on Tuesdays at Lynthia's Place. A flyer with dates, times and locations will be released shortly. All Aboriginal community members are welcome to attend the programs facilitated by Kerry and, if you live in Tambellup, Katanning, Broomehill, Cranbrook, Gnowangerup or Kojonup you can access counselling support provided by Pearl. Remember to *Be Aware and Care*.

OFFAL Season 13

With heartfelt thanks to Ros, Corenea and their families.
This is some of the men of OFFAL ten years ago (2012)!
This month we begin rocking again for OFFAL Season 13

Monday 21st February

See you on the track!

Coach

GREAT SOUTHERN TREASURES **YOORN (BOBTAIL) TRAIL MORNING TEA**

Thursday 24 February 2022

10am to 11.30am

Tambellup CRC/Library

Have you got a story to tell??

Do you know stories about living in Tambellup, or memories, photos and artefacts that you are able to share? Come along to this community event, tell us about your town and help to upgrade existing signage along the Tambellup Town Trails. Your stories could become part of the Great Southern Treasures Yoorn (Bobtail) Trail.

The Yoorn (Bobtail) Trail is a Lotterywest funded project, managed by Outdoors Great Southern and nine local governments across the Great Southern region. It identifies various locations across the region where people can walk, cycle or paddle and discover local history and culture and explore the natural environment.

If you would like to join us, please let Rebekka at the CRC know by Monday 21st February (to make sure we have enough cake!).

If you would like more information about the Yoorn (Bobtail) Trail project, contact May Carter at may.carter@outdoorsgreatsouthern.org.au or call 0409 889 270.

Hope to see you there!

SENIORS LUNCH

Thursday 24 February 2022

From 11.30am

Tambellup CRC/Library

For catering purposes please RSVP to the Tambellup CRC by the 21st of February

Phone: 9825 1177 | **Email:** tambellup@crc.net.au |
or direct message us on facebook

WINNER - OUTSTANDING ORGANISATION AWARD 2020
WESTERN AUSTRALIAN OUTDOOR RECREATION SECTOR AWARDS

GO FIGURED

The free RSM workshop to future-proof your farm

Figured

See why thousands of farmers are shifting from spreadsheets and old agri software, to the leading online farm reporting, forecasting and production tracking tool, Figured.

Join us for a free, interactive and informative Figured workshop, designed to give you an overview of Figured's capabilities and more.

- How Figured works and why it was developed
- Tracking livestock, crop production and forecasting for future movements
- Building budgets for the years ahead
- See how Figured can show your worth now and in the future with a Statement of Position
- Working with Xero and entering sales and purchases
- Accessing ready reporting for you and your advisers:
 - *Variance reporting*: Understand where things have gone to plan and adjust if necessary
 - *Production reporting*: Understand more details per head/tonne produced

MEET YOUR FIGURED EXPERTS

Marie Van Blommestein
Senior Manager, RSM Australia

Providing digital solutions to a range of clients in agriculture, Marie works closely with Figured and Xero users to develop leading farm efficiencies, helping farmers gain a clear understanding of their farm finances.

Nathan Hobley
Senior Accountant, RSM Australia

Working throughout the growth of cloud accounting solutions such as Figured and Xero, Nathan understands the efficiencies of cloud-based software, enabling greater automation and collaboration for farmers.

Date: Friday, 25 February 2022

Time: 9:30am – 12:30pm

Venue: **Tambellup CRC**
34 Norrish Street,
Tambellup WA 6320

Cost: This workshop is free

RSVP: Please RSVP by Tuesday, 22 February 2022 to confirm your attendance

*This workshop is designed for advanced Xero users.
Attendees are encouraged to bring their own laptops/tablets.*

TAMBELLUP CRC INVITES YOU TO:

Pancake Day!

AT THE TAMBELLUP CRC

1st of March 2022

10AM - 2PM

GOLD COIN DONATION

TEA AND COFFEE PROVIDED

Tambellup Bowling Club

Please note Covid restrictions in place from 31/01/2022
for **all** users of the Tambellup Community Pavilion.
These rules will be in place until altered by the government.

We have sought advice from Clubs WA and Bowls WA on this matter

1. Proof of double vaccination or exemption required for all over 16 players and spectators. No proof, no access. Digital or paper acceptable. If not using the Service WA app you could be asked for proof of identity. Proof not recorded and will need to be provided on every visit. To prevent delays at the door, please have proof ready.
2. The "Covid marshal" will stamp your wrist to assist catering and bar staff.

Welcome to 2022 everybody!

- What will be in the pipeline for Tambellup CWA in 2022?
- Is there a role for Tambellup CWA in our present circumstances?
- What would you like to see happen in your local area in 2022?
- How will Covid-19, and omicron affect us here in Tambellup?
- Would consolidating our community groups be of interest?

If so, who would you approach – what are your interests?

There are lots of questions and unknowns ahead of us, but most of all, the question of whether there is a role for CWA in present day Tambellup. Maybe it is time for that role to change. Come along and have your say, show your support or let us know how we could do it better.

CWA Tambellup would also like to inform the community that as a group, we are no longer able to provide catering services on a broad scale. Some of our individual members are happy to assist other groups when able, but cannot continue to organise and facilitate events in their own right.

Our Annual General Meeting will be held at **10am on Thursday, 10th February 2022** followed straight after by our normal meeting over morning tea.

If you are new to the district, or are looking for a way to meet people and contribute to your community, you are most welcome to join us on the 2nd Thursday of the month.

AGM & Meeting

Thursday, 10th February 2022
At 10.00am
in the Tambellup CWA Rooms, Henry St, Tambellup

After school Activities

Crafts | Cooking | Board Games
(a random Activity each Week)

Every WEDNESDAY AFTERNOON of Term 1
After School - 2.45 pm

Department of Health

COVID-19

What to do if COVID is in my community

Listen to your community leaders. A COVID response team will come to help (health workers, police and others). They will help to keep your community safe.

Stay home

Don't visit other houses. Tell friends and family to stay home too. If you feel unsafe at home, go somewhere safe, but tell your community leaders or police.

Stay in the community

Don't leave to go to town or visit other communities.

Call the clinic or tell the COVID response team if you are sick

Let them know so they can help.

If you need things like food, medicine or other supplies

Tell your community leader, COVID response team, or call 13 268 43 or 9821 6890 for help.

Stay calm. Stay home. Call for help. Keep your community safe.

The COVID response team will advise how you can get vaccinated.

health.wa.gov.au

Be prepared for COVID

If COVID gets into your community, help will come, but we all need to be prepared.

What you can do now – BEFORE COVID is here

- **Get vaccinated.** Most people who are vaccinated do not get very sick from COVID. Make sure you **get 2 doses.** This is the best way to protect yourself and your whole community.
- **If someone gets COVID,** the COVID response team will talk to them about how they can best care for them. This might mean leaving community to go to hospital. **Things to think about:**
 - If this is you, would you like to stay in community, or are you ok to go?
 - If someone leaves to go to hospital who can the health team contact to give updates to?
 - If you have children and have to leave to go to hospital, who will take care of them?
- **Food and other supplies** will be sent to the community but this may take up to 24 hours.
 - Do you have food at home to last one day?
 - If you have regular medicine, do you have enough to last for a few days?
 - Ask your community leader who you can call for help, if you can't go out and need food or other supplies.
 - If you have pets – do you have some extra food for them?
 - Can you protect yourself? Do you have some face masks and soap to wash your hands?
- **Stay COVID safe.**
 - Wash hands often with soap and water or use hand sanitiser.
 - Cough or sneeze into your inner elbow or into a tissue.
 - Keep your distance – stay 2 big steps away from people you don't live with.
 - Increase cleaning of frequently touched surfaces (phones, door knobs, benches etc).
 - Stay at home when you're sick. Call your clinic – you might need to get a COVID test.

What to do if COVID gets into my community

- **Stay calm. Follow TRUE advice** from your community leaders and COVID response team.
- A **COVID response team** (health workers, police and others) will come to help your community as soon as possible. They might be wearing masks, glasses and funny clothes over their normal clothes called PPE (personal protective equipment).
- PPE is to keep you and the COVID response team safe. It stops COVID spreading.
- You should **stay at home**, with your household and away from others. Don't have visitors over. If you feel unsafe at home, go to a safer place. Tell your community leaders or police.
- Stay in the community. Don't go bush or visit other communities. Even if you're not sick, you could have COVID. If you leave, you could spread it to other communities.
- You and your family might have to have a **COVID test.** It is quick and it doesn't hurt.
- **If you have COVID or someone in your house has COVID,** the COVID response team might talk to you about leaving the community, to go to hospital so you can be cared for, or to go to other accommodation to help stop COVID spreading to other people in your community.
- **Food, medicine and other supplies** will be provided to help your community. Tell your community leader or the COVID response team if you need something.
- **Stay COVID safe** (see above). Follow the health advice to protect yourself and stay strong.
- **If you feel sick, stay home and call the clinic or tell the COVID response team.** If you are very sick and it's urgent call 000.

Improving your yield.

That's all we're interested in.

Industry leading inoculant supplier

ALOSCA Technologies is an industry leader in Rhizobia inoculants for legumes supplied in a unique patented granule. It is the only inoculant that can be reliably used in dry sowing, top dressing or in contact with seed dressing or fertiliser that would otherwise be harmful to Rhizobia bacteria.

Ideal for summer or early seeding

ALOSCA granules provide flexibility like no other product. Legumes can be sown with ALOSCA granules in dry conditions and remain in the soil for months until being activated by the same seasonal rain that germinates the crop.

Don't just take our word for it.

Read what Nathan Garn from Wyalkatchem has to say. Nathan grows approximately 1,500ha of lupins annually.

"I'm switching back to ALOSCA granules this season. I tried another product last season but it was a nightmare handling and questionable how well it would work in tough dry conditions. ALOSCA granules are far easier to handle and I can better trust they work in all situations."

Benefits at a glance:

- Specifically developed for Australian conditions and soils
- Can be dry sown, simple to apply and can be easily blended with fertilisers, seeds or a third box
- Can be used with seed dressings that are typically harmful to inoculants
- Can be stored for months in a dry area
- No need for slurries

Our inoculants are suitable for these pasture and crop species:

- Lupin and Serradella
- Field Pea, Faba Bean and Vetch
- Chickpea
- Sub Clover
- Lucerne, Strand and Disc Medic
- Barrel and Burr Medic
- Biserrula

Order through your local stockist and make sure you specify ALOSCA granules.

For more information on how we can benefit your operation, please contact ALOSCA Technologies on (08) 6305 0123 or visit alosca.com.au
