

## **Crowden Street/Henry Street Intersection Modifications**

The Council has endorsed a streetscape upgrade for Crowden Street, which will include the planting of street trees, installation of street furniture, and alignment of the eastern end between Taylor Street and East Terrace. These works are intended to enhance the overall amenity of the area and provide a more welcoming pedestrian entry to the Tambellup Sports Ground.

As part of these improvements, the Shire is also reviewing the current traffic arrangements at the intersection of Crowden Street and Henry Street. Historically, Henry Street was the priority road into the town centre from Gnowangerup–Tambellup Road. Following modifications to the five-way intersection at Taylor Street / Henry Street / George Street, the eastern end of Henry Street was converted into a cul-de-sac; however, traffic signage at the Henry Street / Crowden Street intersection was not updated to reflect this change.

To better align the signage with the existing road layout and improve safety and functionality, it is proposed that Crowden Street be designated as the priority road, with give way signage relocated to Henry Street.

The streetscape plan for Crowden St showing the proposed modifications is available for inspection at the Shire Administration Offices, and on the Shire's website at <https://www.shirebt.wa.gov.au> under 'Shire Plans'.

Community members are encouraged to provide their comments or raise any concerns regarding the proposal. Written feedback is invited, and can be provided:

- By mail to the Shire at 46-48 Norrish St Tambellup 6320;
- By email to [mail@shirebt.wa.gov.au](mailto:mail@shirebt.wa.gov.au); or
- By using the online feedback form at <http://bit.ly/42CoGol>.

Submissions close on 4 March 2026.
